HOSPITALITY OF CITY IS EXTENDED TO VISITORS

Hughes Special Carrying the Group of Enthusiasts for G. O. P. Leader Arrives in Oakland Amid Great Enthusiasm

LOCAL REPUBLICANS HOSTS AT LUNCHEON

Many Prominent Workers Are Making Trip to Urge the Fair Sex to Give Nominee Votes at Polls in Hope of Ballot

The inspiring strains of patriotic music from a waiting band of musicians, the special train of the Women's Hughes Campaign party drew into the Sixteenth street station this morning at 9:25 o'clock with portraits of Charles Evans Hughes decorating every window, and every car affixed with banners and flags. As the distinguished party of women, representing workers in every phase of social progress, stepped from the train at the end of the first three-thousand-mile stage of the transcontinental tour in the interests of the standard-bearer of the Republican party, they were greeted by hundreds of women and men who had assembled to welcome them to the shores of the Pacific and assure them of the solidarity of California in the Republican ranks at the November election.

FAMOUS WOMEN COME.

Among the prominent members of the party who are giving their time and effort for the success of the Republican candidate, are Miss Annie S. Peck, the famous mountaineer, whose exploits on snowy peaks has won her international renown; Miss Mary Antin, author of "The Promised Land" and "They Who Knock at Our Gates"; Mrs. Maud Howe Elliott, daughter of Julia Ward Howe; Mrs. Raymond Robins, president of the National Women's Trades Union League and member of the executive committee of the Chicago Federation of Labor; Mrs. Edith Elliott Smith, president of the Rural Life Association of Pennsylvania; Miss Elizabeth Freeman, distinguished worker in the interests of the colored people of the United States; Mrs. Alexander Kohut, vice-president of the New York section of the Council of Jewish Women; Mrs. Frank Mebane, chairman of the North and South Carolina Division of the National Civic Federation; Mrs. Nelson O'Shaughnessy, author and wife of the former charge d'affaires in Mexico, and Mrs. Katherine P. Davis, former superintendent of the New York State Reformatory for Women.

Mrs. Henry Moskowitz, chairman of the board of grievances of the Shirt-makers and Garment Workers of New York City, who was with the party until its arrival in California, was not present this morning, having been called back to New York by the duties of her office.

The delegation of women of the east has been headed by Miss Margaret Ogden, daughter of Judge F. B. Ogden. Addresses of welcome were delivered by Commissioner W. H. Edwards on behalf of the city of Oakland, and Elmer E. Nichols, chairman of the Alameda County Republican Central Committee on behalf of the county.

WELCOMES WOMEN.

"As acting mayor of Oakland," said Commissioner Edwards, "and a representative of the people of the municipality, I welcome you and extend to you the freedom of our city. We welcome you not only as representatives of a political party, but as a body of distinguished women, renowned throughout the United States for your splendid work in various fields of endeavor for the uplift and progress of our race. We in California are proud of our women, and we assure you that you will find our women standing side by side with the men in all matters of moment to the State. We regret that your stay with us will be so short, but we must suppose that you know best where your labors are most needed. We welcome you and wish you success."

Following Commissioner Edwards, Elmer E. Nichols spoke briefly as follows:

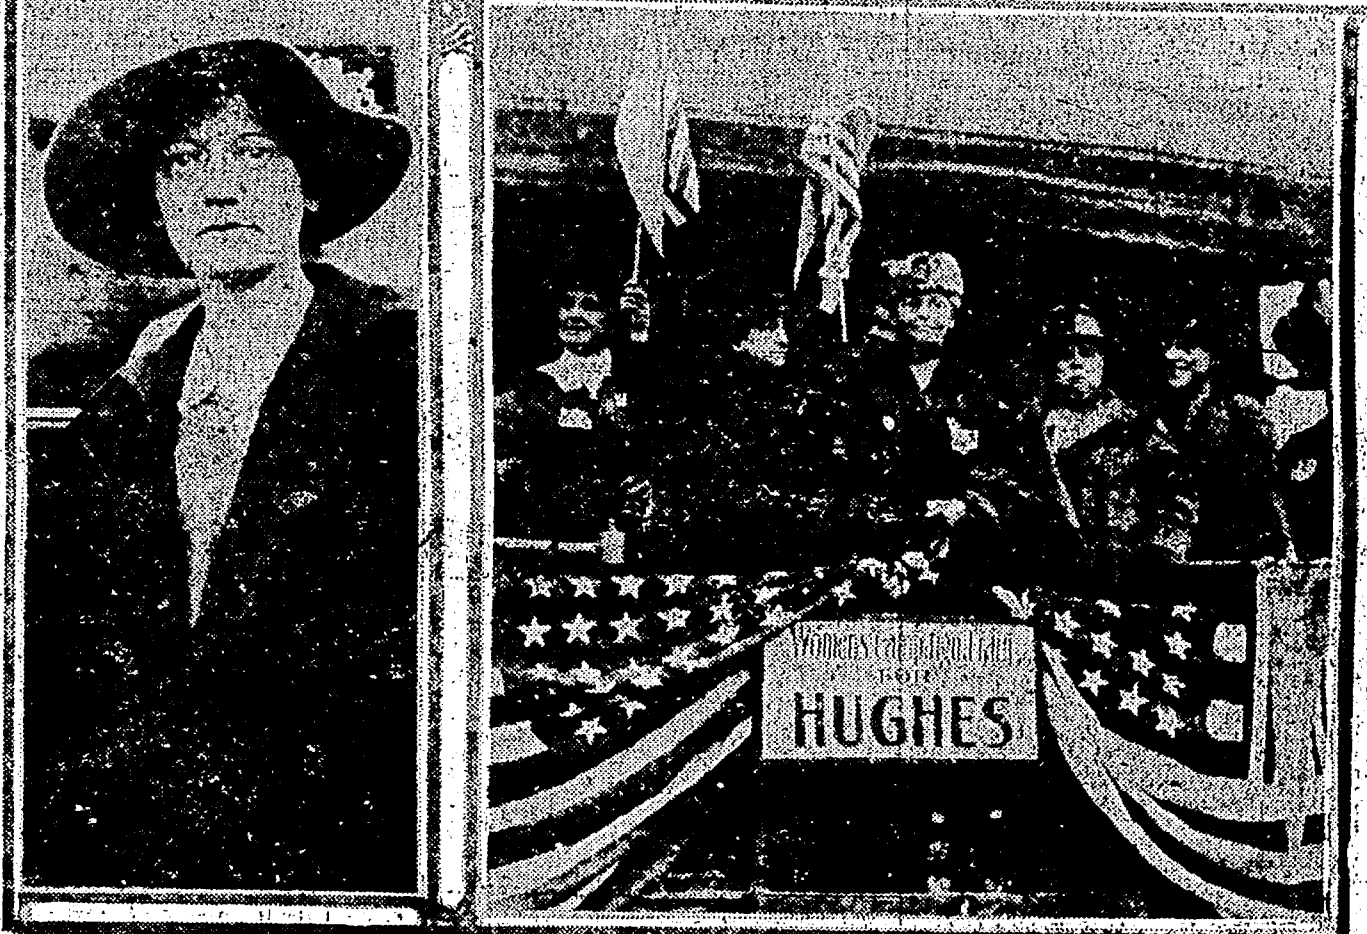

"It would be, I think, impossible for me to add to the warmth of the welcome already extended to you. We deem it an honor to have with us today your women of the Hughes Campaign Special."

"We cannot understand why men of California, why you have had to fight so long and so valiantly with us for the ballot. But we assure you that you are waging a winning battle."

"We do not understand why national legislation for our railroads is any more necessary than legislation which will allow the women of the United States to have a voice in the selection of the senators and representatives who make our federal laws."

"Your visit to California is symptomatic of the wave of enthusiasm for the Republican candidate which is sweeping the country. You may return to the east with the message that this

Power Concern Will Defy City Scout City Attorney's Opinion

Announcement that the Great Western Power Company will attempt to confute the opinion of Assistant City Attorney George E. Jackson, that the granting of a second franchise to that corporation would be a violation of the revocation of its first, a contention which, if true, will cost the corporation \$400,000 or more in the next thirty years, was made to the city council today.

The announcement was made in the form of a letter to City Clerk L. W. Cummings, which was read in open council. The letter is signed by W. H. Spaulding, assistant to the secretary of the Great Western Company. Spaulding gives out the ultimatum that his company refuses to accept the city's opinion as authoritative and that the \$11,000.00 check which has been paid as franchise fee will not be changed by the company. The letter was referred to Jackson, who will now consider the next step in the complicated case. Two courses are open to the city, according to Jackson. One would be an attempt on the part of the council to cancel the company's franchise rights in Oakland, whereupon the corporation would have to take the case into the courts. The other course, he says, would be for the city to determine what it considers due in franchise fees under his interpretation of the situation, whereupon suit should be filed against the corporation for the collection of the money.

Jackson's week ago told the council that in his opinion a second franchise granted the power concern in 1913 automatically cancelled its first franchise, granted in 1908. Jackson held that the second franchise covered all the power granted in the first, with others in addition. The second franchise is also for thirty-five years against fifty years for the first; and it provides a scale of fee payments far in excess of that provided in the 1908 franchise.

The company officials recently submitted a check for \$11,000.00 to Cummings as payment of the total fee they claim to owe the city under their two franchises. Jackson claims that the fees should be paid under the terms of but the second franchise, a fact which would call for the payment of considerably more money year after year, and which would in the life of the franchise amount to an additional \$400,000 to be paid the city in the hands of Judge Ogden. It is now the city's next move.

WOMAN, QUITTING ASYLUM, TO FACE CHARGES A NEW

Evelyn Von Dohlen Takes Sudden Leave of Agnews to 'Save Her Mind.'

Fearing that she would go insane if she remained longer in the state asylum at Agnews, Mrs. Evelyn Reed Von Dohlen, who in February of this year created considerable future through her escapades and because of the championship of her cause by Rev. Alexander Allen, rector of St. Paul's Episcopal Church, has run away from the state hospital.

She is in Oakland, under guard at the Hotel Menlo, Thirteenth and Webster streets, where she gave herself up to the probation officer upon arriving here. She will be taken before Superior Judge F. B. Ogden tomorrow, and charged with having violated her probation. Rev. Allen is her sponsor, having produced bonds to the amount of \$2000 to insure her stay at Agnews.

"This is Mrs. Von Dohlen," she told Miss Theresa McCarthy, deputy probation officer, over the telephone, upon her arrival in the city. "I have run away from the Agnews hospital. Had I remained there longer I would have gone stark, raving mad. I will not go back there. I would rather be sent to San Quentin than return to that place."

Whereupon Miss McCarthy called upon the strange prisoner at the Hotel Menlo and talked the matter over with her. Mrs. Von Dohlen agreed to return to court with the probation officer and place her relatives to believe he had been killed by a train. His mother, Margaret Cooper, died five years ago leaving the estate to Arthur, who succumbed a year ago. Public Administrator Hynes, appointed by Superior Judge Graham to look for heirs, told of finding Cooper today.

LOS ANGELES, Oct. 17.—The trial of Mrs. Stubbs, charged with conspiracy to defraud Mrs. Mary A. Abernethy of some \$50,000 of valuable lands, began this morning before Federal Judge Tipton.

British Take American From Dutch Steamer

NEW YORK, Oct. 17.—Four Belgians and one man claiming to be an American, were removed from the Holland-America liner Ryndam by British authorities at Kijkvallen and Falmouth, according to officers of the ship on her arrival here today from Rotterdam. The American passenger was Ernest Young. Passport irregularities were alleged by the British. Wireless advice that submarines had been active near the American coast were received by Captain Krol of the Ryndam soon after leaving Falmouth and at night all lights were kept burning, including name and nationality in electric letters three feet high along the rail on each side of the vessel. Nothing was sighted, the officers reported.

Teuton Advance Is Said to Be Checked

PETROGRAD, Oct. 17.—The new Austro-German offensive near the Rumanian frontier, south of Dorna Vatra, has been checked, it was officially announced today. The Russians repulsed several enemy attacks. In Dobruja fighting has broken out along the whole front. North of Korytnica and near Bolshovo obstinate fighting is going on. Fierce enemy counter-attacks were repulsed yesterday, and throughout the day there was no interruption in the intense bombardment. The Russians captured a machine gun and thirty prisoners in this region.

GREEK WARSHIPS TAKEN BY CREWS OF ALLIED NAVY

Hurried Activity in Athens Marks Move by War Powers.

ATHENS, Oct. 17.—Allied warships landed at Piraeus, the port of Athens, today and are en route here to reinforce the Athens police. Disturbances are threatened and it is feared the police will be unable to cope with the situation.

BUCHAREST, via London, Oct. 17.—Austro-German attacks in Transylvania have been repulsed by the Rumanians, the war office announced today. Rumanians are holding their positions west of the frontier.

LONDON, Oct. 17, 10:35 a. m.—The entente allies have taken over the Greek battleships Kilkis (formerly the United States battleship Kilkis), the Lemnos (formerly the Mississippi) and the Averoff, says Reuters Athens correspondent.

Allied crews were put on board the battleships, the correspondent says, and the Greek crews were landed and sent to Athens.

On October 11 the allies took over the entire Greek fleet except the Kilkis, Lemnos and Averoff. This measure, it was explained unofficially, was intended to insure the safety of the allied fleet, as fears had been aroused of a disturbance at points where the vessels of the allies were anchored.

LONDON, Oct. 17.—Vice-Admiral French, commander of the Anglo-French fleet in the Mediterranean, has handed the Greek government a new note of an extremely grave character, says a despatch to the Athens telegraph company from Athens dated yesterday. Following the presentation of the note King Constantine, it is added, came to the capital in haste from the royal residence at Corfu.

The railway stations of Athens and Piraeus, the city hall at the capital and the Castalia barracks have been occupied by French and Italian sailors, with two machine guns. The barracks have been stationed in the municipal theater, according to a Reuters despatch from Athens today. The city is quiet.

Urgent cabinet council has been summoned.

It is officially explained, adds the despatch, that the detachments landed will assist the police in stopping demonstrations which threaten trouble.

Man Believed Dead Claims \$5000 Estate

SAN FRANCISCO, Oct. 17.—Charles Cooper, working quietly as a meat packer in Chicago, today found himself heir to an estate valued at more than \$5000, the existence of which he never knew until after he himself had been given up as dead by his relatives here.

Following a quarrel with his brother, Arthur E. Cooper, a bookkeeper for the Southern Pacific Company, Cooper left here eight years ago and the subsequent finding of a body answering his description caused his relatives to believe he had been killed by a train. His mother, Margaret Cooper, died five years ago leaving the estate to Arthur, who succumbed a year ago. Public Administrator Hynes, appointed by Superior Judge Graham to look for heirs, told of finding Cooper today.

LOS ANGELES, Oct. 17.—The trial of Mrs. Stubbs, charged with conspiracy to defraud Mrs. Mary A. Abernethy of some \$50,000 of valuable lands, began this morning before Federal Judge Tipton.

Pole Rental Due City From Every Corporation Here

But, to Prevent Bankruptcy, It Won't Be Collected

Street and general railroads, and all telephone and telegraph companies doing business in the city of Oakland would probably have to go through bankruptcy proceedings were the city officials to enforce literally an ordinance which was discovered today in the dust-covered archives of City Clerk W. Cummings.

This measure, enacted in 1894 when former Governor George C. Pardee was Oakland's mayor, provides that a yearly rental of \$50 shall be paid the city on every pole maintained in the city of Oakland by any street or general railroad or telephone or telegraph company. The ordinance was discovered during the recent attempt of city officials to classify the city's franchises as public utilities. Cummings has been unable to find any evidence of the ordinance having ever been repealed. His clerks are still tracing the records in the case.

"An enormous sum would be involved should this rental be demanded of every pole in the city for the time between now and 1934," Cummings said today. "But that is not feasible. Every concern would go bankrupt were an attempt made to collect this fee. Of course, we will go on and investigate, but I am certain that no such attempt will be made to collect those rentals will ever be made in any event."

The Southern Pacific and San Francisco-Oakland Terminal Railways are affected, as are the Pacific Telephone Company, the Pacific Gas & Electric Company, the Western Union and Postal Telegraph companies.

Belgian Workmen Said to Have Been Shot

LONDON, Oct. 17.—The Amsterdam correspondent of the Exchange Telegraph Company wires the following:

Three hundred workmen in a Ghent factory who refused to work in German munition works in Belgium, have been arrested and sent to Germany. The Belgian workmen were shot. The Germans everywhere are forcing the Belgians to work for them, particularly on the railways. Their own personnel having given up the struggle.

Aked's Friends Hope for Return to Pulpit

SAN FRANCISCO, Oct. 17.—A new movement looking to the reinstatement of Dr. Charles F. Aked, pastor of the First Congregational Church, from which he resigned a year ago to join the Ford peace party, was started by parishioners today following Aked's appearance here on a lecture tour. A month ago the congregation rejected a resolution to issue a call to Aked, but his lecture on peace here last night has led to a change of views of some of his former enemies.

Ferdinand Conspirator Dies in Military Jail

BERLIN, Oct. 17.—Nedjo Kovic, one of the conspirators in the assassination of Archduke Franz Ferdinand, heir apparent to the Austrian throne, in 1914, has died in a military prison, says a Reuters despatch from Vienna today. He was the Overseas News Agency. Three of the conspirators in the assassination of the archduke were executed in February, 1915, and Jakob Slovic and Nejo Kovic were sentenced to life imprisonment, but it was later commuted to twenty years. Gavro Princip, the actual assassin, was sentenced to twenty years in prison.

Ammunition Cargo of Russ to Bottom

BERLIN, Oct. 16.—According to a Christiania despatch to the Overseas News Agency today, the Russian steamer Bistriza, sunk by a German submarine from Brest to Archangel when she was sent to the bottom. She was insured for 25,000,000 kroner.

A Christiania despatch on October 13 reported the sinking of the Bistriza by a torpedo. She was a vessel of 3888 tons.

British Buying Sends Wheat Price Skyward

CHICAGO, Oct. 17.—Wheat prices made an excited leap upward today of 1 1/4c a bushel as the result of a stampede to buy. It was said export transactions amounted to more than 1,500,000 bushels and that the British government appeared to be making every effort to cheapen the cost of handling American wheat, notably in the direction of cutting down freight rates on the Atlantic.

Superdreadnaught Is Placed in Commission

NEW YORK, Oct. 17.—The new super-dreadnaught, Arizona, built at the New York navy yard, will be placed in commission this afternoon with the customary ceremonies. She will be commanded by Captain John D. McDonald, formerly chief of staff to Rear Admiral Fletcher. Her main armament consists of twelve 14-inch guns in four turrets. She is 808 feet long and displaces 31,400 tons.

Seven Burned to Death in Factory

NEW YORK, Oct. 17.—Seven persons were burned to death and two others injured in a fire which this afternoon destroyed the chemical plant of the Oakes Manufacturing Company and spread to adjoining property, according to reports to the police early this afternoon.

HINDENBURG SWEEPS ON RUMANIA IN BIG DRIVE

Austro-Germans Drive Wedge Between Armies at Border: Belief Grows That Fighting Preludes Heralded 'Crusher'

TEUTON ATTACKS ARE INCREASING IN FURY

New Chief of Germanic Powers Forces Fighting Upon Enemy Soil; Allies Stiffen Units Where Threat Is Greatest

LONDON, Oct. 17.—Von Hindenburg's widely heralded eastern front offensive, apparently is under way. Teutonic forces are attacking vigorously on a sixty-mile front along the northwestern Rumanian frontier. At the same time they have opened heavy assaults against the Russian lines north of the Carpathians.

An official statement from the Rumanian war office this afternoon said the Austro-German successes in this new offensive. The Teutons have pushed down the Trotus valley to the town of Agas, where they were engaged in battle with the Rumanians. Berlin despatches yesterday reported that the Germans had broken through the Rumanian lines, leading into the Trotus valley, and were driving toward the main railway supplying the northern Rumanian armies.

RUSSIANS CLAIM REPUULSE.

The Russian war office, however, announced the repulse of all Teutonic attacks near Dorna Vatra, in this region that Von Hindenburg is delivering his hardest blows, apparently planning to drive a wedge between the Austro-German and Rumanian armies. The Austro-German army north of the Carpathians apparently are to prevent the shifting of Rumanian troops southward to meet the new attack.

In Rumania fighting has been resumed between the Russo-Rumanian and the German-Bulgarian armies all along the front.

Strong Teutonic forces, according to Petrograd despatches, are attacking the Russian front south of Bukovina, near the point where the Rumanians and Rumanians have joined hands. The Austro-German war office announced that the Rumanians have been driven back at this point. Berlin despatches reported that the Austro-Germans are falling back across their own front.

Every indication points to the beginning of Von Hindenburg's widely heralded campaign to crush Rumania.

ON RUMANIAN SOIL.

The Teutonic attacks have suddenly become more violent. General Falkenhayn is trying to break through the Rumanian line. Southwest of Kronstadt, the Austro-Germans are attacking in large forces. Heavy fighting is going on on Rumanian soil.

In Dobruja there has been no change in the situation in the past few days, according to official statements. From the Russian, Rumanian, Bulgarian and German war offices these statements refuted a Petrograd wireless despatch, unconfirmed from any other source, reporting that the Russo-Rumanians had won great victory and were again before Dobruja, an advance of more than thirty miles.

Attack Near Lemberg

PETROGRAD, Oct. 17.—Teutonic troops are heavily counter-attacking the Russian lines in the region south-east of Lemberg, the war office announced today. The attacks were launched after bombardments of great intensity in the district north of Korytnica and near Bolshovo, five miles north of Halicz. The Russians took many prisoners and one machine gun during the fighting.

Heavy cavalry fighting in Turkish Armenia in which great losses were inflicted by the Russians, is reported by the war office. The following account of operations on the Caucasian front was issued today:

In the coastal region our artillery successfully bombarded the port of Baku.

Between Hazat and Mamakhatun (fifty miles west of Erzerum) Cossacks made a gallant charge on a horde of Kurds far superior in numbers and repelled them with great loss.

Villa Is Located on Hearst Ranch

EL PASO, Oct. 17.—Francisco Villa is now on the Hearst Ranch at Embudo, according to a statement of passengers arriving here today from Pearson, a station on the Mexico Northwestern Railway below the American expeditionary base. Passengers from Parral say that Villa bands are moving northward and advices from Torreon report them heading northwest.

INFIRMARY EVILS TOLD AT MEETING

Mrs. Harrison Describes Way Inmates Are Housed; Praises Series of TRIBUNE Articles Exposing Wretched Condition

Cows and Pigs at County Hospital Have Good Buildings; Human Beings Lack Decent Sick Wards and Dormitories

ALAMEDA, Oct. 17. — "The county infirmaries have a fine barn for the cows and a most beautiful place for the pigs," said Mrs. F. G. Harrison before the Alameda County Civic Center at the chamber of commerce rooms last night. Mrs. Harrison, as chairman of the county infirmaries committee of the welfare board, spoke for the benefit of the inmates of the county infirmaries and the hospital. Mrs. Harrison reported that the staff of attendants were doing the best they could under adverse circumstances. She said that the infirmaries were in a very poor state of repair and that the inmates were crowded and uncomfortable. She praised the series of articles in the Tribune which had exposed the conditions and called for more attention to the problem. She said that the inmates were not given proper food and that the buildings were in a state of disrepair. She called for more funds to be allocated to the infirmaries and for more staff to be hired. She said that the inmates were not given proper medical care and that the conditions were inhumane. She called for more action to be taken to improve the situation.

Great Premier Sees New France Asserts Moral Gain Worth War

PARIS, Oct. 17.—The remodeling of French political methods after the war, resulting in a concentration of government, is predicted by Premier Briand, according to a conversation the premier has had with friends, which is recapitulated in the *Picasso* by Alfred Capus, the dramatist and member of the French Academy. M. Capus quotes the premier as saying:

"I do not pretend to do more than sketch the main outline. As the result of lessons it cannot escape I believe our country will resume instinctively the notion of direct control and authority. There will be this difference, that, while under past regimes this authority was imposed upon it historically and by custom, today it is the country itself which demands it from its elected representatives as well as a more firm and concentrated direction of its business."

THINKS OF FUTURE.

You understand I am not speaking for myself. I am thinking of the next group of politicians who will be in power. They are bound to come on the scene with a fresh outlook, and less bound by opinions and doctrines, will submit themselves more easily to experience.

Our present political methods are not at all damaged by the war. They simply require to be revised, remodeled and re-created. I am convinced, for example, that the spirit born of the war is about to clash with the spirit of parliamentarism and that it will bring to an end the system of government which has been substituted for the notion of public welfare which has been lost in what one might call the pulverization of efforts. What will be wanted will be concentration of effort in the general interest. In my opinion the need is to concentrate instead of disperse and you cannot imagine with what goodwill universal suffrage will accept these principles. I believe it is ready to do so now. The war has put it in a state of receptivity and it remains only to speak to it clearly and frankly and to awaken in it a realization of its own condition."

CONDITIONS DIFFERENT.

Speaking of the actual situation, Premier Briand said:

"I simply ask you to consider what has already been done and what no result of the war can keep from us. Compare what France and Paris were in July, 1914, with what they are in October, 1916. The truth is that we were not decadent, but that a new generation had sprung up, more sensible, perhaps, to reminders of defeat; more serious."

to wait on the inmates and they must wait on themselves or get some other old inmate to wait on them. Dr. Willis told me that he was trying to get another nurse but that it was hard to get. The nurse's quarters are good but I believe they do not care to be so far from the center of the hospital."

SMALLPOX SPREADS.

In response to questions, Mrs. Harrison said that she had seen that smallpox was spreading in the infirmaries. She said that the conditions were inhumane and that the inmates were not given proper medical care. She called for more action to be taken to improve the situation.

ARMY BOARD WILL PROBE POST DEATH

Fight in Presidio Hospital Will Be Thoroughly Investigated.

SAN FRANCISCO, Oct. 17.—An army board of inquiry today began an investigation of the second violent death at the Presidio hospitals within a short time. This follows the death of Charles Walter Blackburn, a chemist at the post hospital Sunday, after a little encounter with John Wornley, attached to the quarters of the post hospital. Today's findings will establish whether Wornley is to be held. Relatives of Blackburn are on their way here to demand a full investigation. According to the story told by Blackburn, a quarrel broke out between him and Wornley, who was a pharmacist in the army medical department. Blackburn was in the kitchen when Wornley was building a kitchen. Blackburn's opponent told Blackburn, "I am going to shoot you," and then fired a shot. Blackburn was killed. Nothing was known of the affair until Frank L. Blackburn of Petaluma called at the Presidio to see his nephew. He found him dead and the details surrounded in mystery.

Burlingame Youth Is Flunked Aboard Ship

SAN FRANCISCO, Oct. 17. — Mount Wilson Jr., son of a wealthy San Mateo family, now assistant steward on the Pacific Mail steamer City of Paris, arrived on that vessel yesterday with a sunburned face and an announced intention of leaving the ship. Young Wilson, since he left on the City of Paris some months ago, has been mentioned in connection with the San Mateo gambling investigation. He was anxious to hear away with him his pen and how far the investigation had gone.

Threats of Suicide by Spouse Tire Wife

SAN FRANCISCO, Oct. 17. — Repeated threats to commit suicide and demonstrations of mental instability have led to the belief that her husband would carry out his announced intention of taking his life, completely alone, in the household of Dr. Clarence Elmer Hyde, according to Mrs. Marie A. Hyde, who was granted divorce by Superior Judge Graham today.

Wide Search Made for Wife Deserter

A coastwide search was started today by the authorities to locate Fay W. Dooley, who is wanted for military probation on a charge of failure to provide for his sick wife and two small children. Dooley was arrested in San Francisco when an Oakland doctor attached his wages. He left, presumably for the coast. His wife lives with her aged parents who have been forced to do day labor in order to support her and their grandchildren. Mrs. Dooley is in a precarious condition.

Alfred Benson, alias Alfred Dennis, a negro, the alleged "telephone box thief," was held to answer to the Superior Court on a charge of burglary. Police Judge Mortimer Smith today, Benson, according to the police, robbed more than thirty telephone pay boxes in various public buildings of the city during the past three weeks. Benson told the police that he had been furnished with keys which he used to break into the boxes by a San Francisco man, who is now being sought by the authorities.

FAILS TO HIS DEATH

SAN FRANCISCO, Oct. 17.—Donald McRitchie, 31 years old, ship's carpenter, fell 60 feet to his death while at work on hull 137 of the Matson Navigation Company being constructed at the Union Iron Works, this morning. McRitchie was on a train track when he was hurled into the air by the train which came suddenly upon him. His skull was fractured and death was instantaneous.

Benefit Is Arranged by City Employees

"Ireland Must Be Heaven, for My Mother Came From There," is one of the popular songs that will be sung by Monte Austin, the well-known baritone, at the theater party to be given by the Oakland Municipal Civil Service Employees' Association at the Reliance Theater on the night of October 24. Other specialties will also be presented on that evening, making it one of the most interesting programs ever presented by a moving picture house.

Wilson to Be Asked for Banker's Pardon

Coincident with the affirming of the conviction and sentence of Thomas R. Sheridan, former president of the First National Bank of Rossmore, Or., yesterday, by the United States Circuit Court of Appeals, came word from Portland that friends of the former banker are circulating petitions to the President for his pardon, on the grounds of his advanced age and infirm condition of health. Sheridan is 76 years old, and was sentenced to five years' imprisonment in the Federal penitentiary at McNeil's Island in 1911. He was accused of converting \$17,000 depositors' funds to his own use, of which about \$15,000 was repaid. Sheridan's tenure was that he had permission of the depositors to do as he saw fit with their deposits.

WILSON FAILS TO SUCCOR NEEDY POLES

Failure of Powers to Agree on Policy of Relief Defeats Best Intentions of United States in Program for Food Supply

At Shadow Lawn He Issues a Letter, Urging Co-operation, and Explains That All Hope for Poland Depends on Allies

SHADOW LAWN, N. J., Oct. 17.—Because important differences still exist between the allied and central powers under which supplies may be sent to starving Poland, President Wilson today announced he "has not yet been successful in inducing the powers to conclude a definite settlement."

Some weeks ago the President wrote a letter to the King of England, president of France, Czar of Russia, Emperor of Germany and Emperor of Austria, urging their co-operation in alleviating the suffering of the Polish people. Today he issued a statement admitting his efforts had been in vain.

The announcement follows:

EFFORTS FAIL.

"I have now received replies from the King of England, the president of France, the Emperor of Germany, the Emperor of Austria and the Czar of Russia to my letter of July 30, 1916, in which I tendered the friendly offices of this government in negotiations looking to a fresh consideration of the possibility and method of relieving Poland. I am disappointed that I have not yet been successful in inducing the powers to conclude a definite settlement."

Blackmail Dropped; Girl Had Just Claim

CHICAGO, Oct. 17.—It was learned today that federal investigation of the so-called "Iowa Blackmail Case" has been dropped. An Iowa woman, whose name was never made public, in this case, was said to have been victimized out of \$10,000 by two girls, Harold and Virginia. The girls, it was said, had been successful in inducing the powers to conclude a definite settlement.

CROSS, FEVERISH CHILD IS BILIOUS OR CONSTIPATED

Look, Mother! See if Tongue is Coated, Breath Hot or Stomach Sour.

'California Syrup of Figs' Can't Harm Tender Stomach, Liver, Bowels.

Every mother realizes, after giving her children "California Syrup of Figs," that this is their ideal laxative, because they love its pleasant taste and it thoroughly cleanses the tender little stomach, liver and bowels without griping.

When cross, irritable, feverish or breath is bad, stomach sour, look at the tongue, mother! If coated, give a teaspoonful of this harmless "fruit laxative," and in a few hours all the foul, constipated waste, sour-bile and undigested food passes out of the bowels, and you have a well, playful child again. When its little system is full of cold, throat sore, has stomach-ache, diarrhoea, colic, or constipation, remember, a good "inside cleansing" should always be the first treatment given.

Millions of mothers keep "California Syrup of Figs" handy; they find it a teaspoonful today saves a sick child tomorrow. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages and grown-ups printed on the bottle. Beware of counterfeiters sold here, so don't be fooled. Get the genuine, made by "California Fig Syrup Company."

Mrs. Reed von Dohlen was placed on ten years' probation by Superior Judge Frank B. Ogden on April 21 after she was found guilty on a charge of passing a fictitious check on an East Oakland grocer. Upon the pleas of Rev. Alexander Allen of St. Paul's church and other friends, the court finally permitted the defendant to agree to voluntary confinement in Agnew's asylum for the period of one year. Her defense on trial was insanity. She furnished a bond of \$2000 with the aid of Rev. Allen to assure the authorities that she would remain in the asylum the designated period.

Other felony charges are pending against Mrs. von Dohlen. One is the alleged embezzlement of an automobile which she purchased from a San Francisco firm on the installment plan and which she later mortgaged to an Oakland loan agent.

Assistant District Attorney James M.

Allan L. Benson Talks to People of South

PASADENA, Cal., Oct. 17.—Enthusiastic over the outlook of his campaign and expressing confidence that his party will surprise many by the size of the vote it polls in November, Allan L. Benson, Socialist candidate for president, arrived here today. He will open his Southern California invasion with an address here tonight and will speak in Los Angeles tomorrow night. On Thursday San Diego will be visited and after that Arizona will be invaded.

When asked today what he expected to discuss in his address tonight, Benson immediately replied that he would lay greatest stress as he has done in all his speeches on clause 75 of the Hay-Chamberlain army reorganization bill, which he denounces as a draft clause.

Two thousand persons heard the Socialist candidate in Fresno last night.

HUGHES ATTACKS UNDERWOOD BILL

Tariff Plan of Present Administration Arranged Before Large Crowds.

MITCHELL, S. D., Oct. 17.—Chas. E. Hughes today assailed the administration for the Underwood tariff, which he declared to be inadequate for the agricultural interests of the nation. Hughes spoke before a crowd of farmers, many of whom had come from miles around to hear him in the town of Parit, Iowa.

"Our opponents reaffirm in their platform the principle of tariff for revenue only and endorse the Underwood act," Hughes said. "The nominal tariff of the Democratic platform plan in this campaign, quoting the phrase applying to the tariff as 'providing sufficient revenue for economical administration.'"

Now, let us look at the figures of imports and of revenue. In the fiscal year ending June, 1913, under the Payne-Aldrich tariff, our imports were \$1,800,000,000 and our tariff revenue was \$319,000,000. In the fiscal year ending June 30, 1916, under the Underwood tariff, our imports had increased to \$2,197,000,000, but our tariff revenues had fallen to \$212,000,000.

Think of that! A vast increase in imports and a vast decrease in revenue. Our opponents furnished neither the economic administration nor the revenue for the advantage of our own markets. We must have adequate governmental policies for maintaining control and securing the advantage of our own markets. We must have protection of American agricultural interests. Otherwise our plans of departmental regulation will be mere barren forms.

Our opponents arraigned the Republican party for extravagance and then proceeded to make a new American record for extravagance themselves. Now we propose economical administration of government. We propose that public moneys shall not be spent to pay political obligations, that streams without water shall not be deepened for commerce, that there shall be no pork barrel legislation.

NEW HUGHES INVOLVED.

The former Supreme Court justice has changed a great deal since talking to more than 2,000,000 people of the United States in the ten weeks he has been stump.

The correspondent in these dispatches has noted the fact that Hughes is now a finished campaigner after starting out a little shy, a little awkward and a trifle backward in public speaking following six years' seclusion on the bench.

His appearance has also changed. Those famous whiskers are now trimmed closer than at any time since he began wearing them. His cheeks are almost clean shaven. And this reveals a deep wrinkle, deepened by the fatigue of his labors as a campaigner. His eyes are a little hollowed by the physical and mental efforts of addressing audiences. These evidences of fatigue, however, are offset by a healthy sunburn on his cheeks and a sparkle of enthusiasm in his eyes.

Hughes hoped to nurse his fading voice today, although he had four speeches scheduled—Mitchell, Sioux Falls, Yankton and Sioux City. He planned to emphasize and enlarge on his speeches of yesterday on the Democratic treatment of agricultural interests and to discuss the effect of the tariff on farmers.

ARMED COMES FAR.

The governor was greatly amused and interested today when, in leaving the train here, an insistent old gentleman tried to push past one of his bodyguards.

"Don't hold me back," he yelled. "I've traveled a hundred miles to shake this man's hand."

Hughes heard the commotion and stopped the entire procession while he shook hands and thanked his admirer for the compliment.

THE WAR IN BRIEF

The Greek situation apparently again has entered a critical phase. Following yesterday's advances that the entente powers had formally recognized the provisional government set up by former Premier Venizelos and his followers in the island of Crete, news dispatches from Athens today report a new note of "an extremely grave character" handed the Greek government by the Admiral Foran, commanding the entente fleet, causing King Constantino to return hurriedly to the capital.

Coincident with this landing from Crete, warships of more than 1000 bluejackets who have occupied the railroad stations at Athens and Piraeus and various public buildings is reported, together with the summoning of an urgent cabinet council.

Concerning the fighting in Greek Macedonia, Paris reports the repulse by the Serbians of a Bulgarian counter-attack in the Cerna river region, southwest of Monastir, and considerable artillery activity. Only patrol activity has developed in the Struma sector.

Heavy fighting continues on the Somme in the Northern France. French troops last night again took the offensive north of

the river and pushed their way further into the village of Sully. Following the Peronne-Bapaume road, capturing another group of houses and repulsing a German counter-attack, according to Paris.

In Galicia, southeast of Hallez, the Austro-German forces have begun heavy attacks on the Russian lines. Petrograd makes this announcement, instancing the launching of assaults in the district north of Korytnia and in the vicinity of Bolshovise, five miles north of Hallez, after intense artillery fire. The fighting apparently still is in progress here.

The strong offensive opened by Teutonic troops near the junction of the borders of Rumania, Transylvania and Bukovina has so far been fruitless, according to the Petrograd official bulletin, which records the repulse by the Russians of all attacks.

CLUB WILL HEAR POLITICS.

Both sides of the Presidential campaign are to be presented at Starr King hall, Fourteenth and Castro streets, tomorrow evening, under the auspices of the Unity Club. An address will be given by Clinton G. Dodge on "Why I Am Supporting Judge Hughes in the Present Campaign," and an address by H. W.

SEEKING MISSING SWAIN AND LASS

Seventeen and Fifteen Their Ages and They Are Headed Here.

The police are today hunting for two very young elopers who are thought to be hiding somewhere in this city. T. J. Donohue, an Escalon farmer, telephoned the police at 11:27 o'clock last night that his fifteen-year-old daughter, Lucy Donohue, and Tony Boone, a seventeen-year-old farmer lad, had eloped and would arrive on the 11:30 o'clock train. Detectives hastened to the station, but the three minutes' warning was not sufficient. The couple could not be interviewed.

Descriptions of two young people given by passengers led the police to believe that the elopers had arrived and had eluded them. Mrs. Hart Wilson, a sister of Boone, is said to live in this city but could not be found.

The girl is described as five feet in height, weighing 115 pounds. She wore a checked suit and wide-brimmed black hat and carried a wicker suit case. Boone, according to Donohue, is five feet two inches in height, weighs 140 pounds and wore a checked suit and red sweater. Brunk on "Why I Advocate the Re-election of President Wilson." Three-minute speeches from the floor will be made on "How I Intend to Vote, and Why." The public is cordially invited.

LAY CALIFORNIA'S KEEL NEXT WEEK

October 25 Is Confirmed for Beginning Work on Big Leviathan.

Official confirmation of October 25 as the date for laying down the keel of the superdreadnaught California was received from Washington today. Preparations at the Mare Island Navy yard, where the largest and strongest of battle ships is to be constructed, are being made for the work. Heavy elements of materials and augmentation of crews will be found necessary.

The California, which is the first United States battleship to be propelled by electricity, is destined to become the Pacific fleet's flagship. It will be practically impregnable to submarine attacks, having a new and unexcelled system of bulkheads and an increased resistance of armor plate.

A crew of 102 men and 63 officers will handle the first line vessel, but electricity will propel the vessel, besides furnishing the motive power for work formerly accomplished by steam or the men. A clipper bow instead of the conventional navy ram will be another construction feature. The "California" is known as No. 44 on the government building records.

The Mare Island bid for the ship was \$7,413,156, exclusive of armament and armor. The entire cost is estimated to be \$15,000,000. The electric generators will be operated by steam turbines of

'May Be Guilty,' Says Prisoner Cannot Remember Murder; Talks of 'Dreams'

ST. LOUIS, Oct. 17.—Jimi All, a Turk, held with Zakar Bogosian, an Armenian, in connection with the kidnapping and beheading of Alphonse Siegalan, three years old, told the police here that he had a dream Sunday night and that he believed he knew where the boy's head could be found.

He asked to be taken to the home of Bogosian and led the police to a room where blood stains were found on a mattress. There was no head, however.

Asked what he thought about it, All said:

"Either him or me killed the boy. Put blood hounds on the trail and if they lead to me I am willing to swing for it."

He refused to say anything further.

OFFICERS CLAIM STRONG EVIDENCE

Mapping Is Slayer of Emeryville Boarding House Keeper Is Belief.

That there is sufficient evidence upon which to base a successful prosecution of Albert L. Manning, alias Gration, who is accused of the murder of Stephen Coppi in Emeryville last August, was stated by Deputy Sheriff Joe Sorensen and Edward Sweeney today. Manning is in the county jail, having been brought to Oakland from San Francisco, where he was arrested two days ago.

We will not need a confession from Manning. We believe that we have sufficient evidence in our possession to convict him without it.

Manning has admitted to the authorities that he was present in the Coppi boarding house at the time of the murder, but after admitting to the San Francisco police that he was the murderer he has retracted his statement. He has a wound on his left cheek and powder marks on his face, which, it is claimed, are the result of his being wounded by Coppi during the shooting fray.

Family Must Have \$22.75 Week 5 Persons Cannot Live on Smaller Income

NEW YORK, Oct. 17.—The average citizen constantly is being forced into a lower standard of living because the increase in prices exceeds increase in wages, W. Frank Parsons, economist, announced today as the result of a series of investigations.

Parsons said his investigations show that the average family of five persons on less than \$22.75 a week, he declared, is equivalent in purchasing value to a \$17 income four years ago.

Foodstuffs have increased 56 per cent since 1918, and clothing to persons' figures. Flour is up almost 100 per cent, vegetables 70 to 110 per cent, coal has advanced from \$5.25 to \$7.45 a ton, hardware has advanced 60 per cent, and the cost of the 4 per cent and all textiles and dry-goods have made big jumps.

Rural Credits Not Success, Declared

EL PASO, Tex., Oct. 17.—If the American farmer can co-operate and if the Rural Credits law can be fully adapted to American conditions the farm area of the United States will be able to produce food for the world, it was declared by the National Farm Bureau today.

Speaking on the origin and growth of rural credits, he outlined their purpose by saying: "The mobilized farmer gets mobilized money at a very low rate of interest by mobilizing security, the essential factor in the mobilization of the farmer."

Reviewing the terms of the Rural Credits bill, and questioning whether it would work in America, he said:

"Unlike Australia, the government of the United States does not compel the American farmer to join these co-operative groups and thereby secure his rural credit, and many doubters are of the opinion that the farmer, who is an individual farmer is such that he cannot be induced to co-operate on the 'all for each and each for all' basis necessary to make rural credits a success. They point out that the majority of the European farmer has made him essentially a co-operative citizen. There each farmer does not live upon his farm, but each farmer lives in a farm village to which he returns his land and his family. The farm village is continually changing hands and the average residence on a farm lasts but five years. The same farm stays in the same family for many generations in Europe, and there is so much in the way of that in some farm villages everyone is related to everyone else."

Peace More Than 12 Months Away: Aked

SAN FRANCISCO, Oct. 17.—"I was willing to return to the church if I was the matter," said Dr. A. K. Aked, pastor of the First Baptist church here, today.

"The Ford peace conference had as much to do with the European situation as I have with the water supply of the country by drinking a glass of ice water tonight."

"Peace is at least a year off. Were it not for American sale of munitions the war would have ended long ago. Such is the substance of the views of Rev. Charles F. Aked, former pastor of the First Baptist church here, who is a member of the Ford peace expedition. Dr. Aked has returned here, after almost a year in Europe.

Commenting on the situation that has prevailed in the church since he resigned the pastorate, he said:

"I was not wanted. That is all it is necessary to say. I do not discuss or comment further. I would do so, I have had no call from other San Francisco churches. When a call from any city comes which I feel should accept, I will answer."

Dr. Aked would like to see the conference. He feels it did a measure of good. As a matter of fact, we set out on a wild goose chase," said Dr. Aked.

HAS NOVEL NAME FOR GREATER CITY

In Event of Consolidation Mrs. Chamberlain Proposes California, Cal.

If the other forty-seven Oakland, United States, are selfish enough to want to keep their mutual title; and if the people of this vicinity can get together and vote for a consolidated city and county government; and

If these promises to be a wordy war as to which of the eleven proposed boroughs should have the honor of naming the brand-new municipality.

Then Mrs. Charles S. Chamberlain, president of the Alameda County Woman's Republican Club, member of the active clubs in this part of the city, and a woman of many reforms in California, proposes a remedy she believes will be approved by the citizenship of the east shore.

Mrs. Chamberlain suggests that if all these things should be about, then California, California, is the proper and most acceptable title for the important city which is in course of development. The suggestion was made on Wednesday last at the Oakland Club, where Mrs. Chamberlain presided as chairman and was well received by more than 100 members and guests present.

If New York City is content to divide its name with the state, Mrs. Chamberlain says, no reason why the Western state should hesitate to divide its cognomen with an important municipality. The romance of the title, its long and honored history and the common interests of both city and proposed city and county, according to Mrs. Chamberlain, make it the most favored name to be considered.

Mrs. Chamberlain has asked the clubwomen to give the suggestion their thought, so that if it falls out that a name is needed, they will be well prepared to present their choice.

Orange Crop Better Than a Year Ago

The condition of the orange crop is reported by the State Horticultural Commission to be better at this time than it was a year ago. The State average for oranges this year to date is 82 per cent, while at the same time last year the average was only 71 per cent of a normal crop. The outlook for the lemon crop is 81 per cent, as compared to 80 per cent in 1915. Oranges show that the crop as a whole will be 64 per cent of normal as compared to 76 per cent in 1915. Butte county, which grows 14 per cent of the crop, shows only 30 per cent of a crop, which accounts in a large measure for the lower State average this year.

INDIGESTION AND STOMACH MISERY JUST VANISHES

The Moment "Pape's Diapensin" Reaches the Stomach All Distress Goes.

Instantly Stops Any Sourness, Gases, Heartburn, Acidity, Dyspepsia.

"Really good," put bad stomach in order. "Really good," put bad stomach in order. Indigestion, dyspepsia, gas, heartburn and sourness in five minutes—that's just that—makes Pape's Diapensin the largest selling stomach regulator in the world. It is a simple, safe, reliable way into stubborn lumps, you belch gas and eructate sour, undigested food and acid; head is dizzy and aches; breath foul; tongue coated; you are filled with flatulence and indigestion; waste, remember the moment "Pape's Diapensin" comes in contact with the stomach all such distress vanishes. It's truly astonishing—almost marvelous, and the joy is its harmlessness.

A large fifty-cent jar of Pape's Diapensin will give you a hundred dollars' worth of satisfaction or your druggist hands you your money back.

It's worth its weight in gold to men and women who can't get their stomachs regulated. It belongs in your home—always at hand—because it is in case of a sick, sour, upset stomach, during the day or night. It's the quickest, surest and most harmless stomach regulator in the world.

Pape's Diapensin instantly neutralizes the acids in the stomach, stops food fermentation or souring, absorbs gases and starts the digestion. The relief is quick, sure, wonderful—stomach distress is a thing of the past, and you are awaiting them.—Advertisement.

HOW TO REDUCE YOUR WEIGHT

A SIMPLE, SAFE, RELIABLE WAY.

People who are overburdened with superfluous fat, know only too well the disagreeable but inevitable overeating. People have to eat.

If you are carrying around five or ten pounds of surplus fat, you are unconsciously weakening your vital organs and are carrying a burden which destroys the beauty of your figure.

There is no need of anyone suffering from excessive fat. If you want to reduce your weight in a simple, safe and reliable way, without starvation diet or tiresome exercise, here is a test worth trying. Spend as much time as you can in the open air, breathe deeply and get from Drug Dept. at 24th St., Broadway, San Pablo and Sixteenth streets, a good druggist a box of oil of korein capsules, take each after each meal and one before retiring at night.

Weigh yourself once a week as to how fast you lose fat. You are losing weight and don't leave off the treatment or even skip a single dose until you are down to normal.

Oil of korein is absolutely harmless, is pleasant to take, helps digestion. Even a person who has been reported to show a noticeable reduction in weight, footprints become lighter, your work seems easier, and you are feeling more buoyant feeling takes possession of your whole being.

Every person who suffers from superfluous fat should give this treatment a trial.—Advertisement.

You have devoted considerable time and thought to playing the Picturegame. Now devote a moment of time and a bit of thought to ending it properly. With \$250 cash at stake you should stop and consider just how BEST to win that money. THIS IS NO TIME TO BE CARELESS!

SUBMITTING ALL YOUR SHREWDNESS

Is it better to make many replies to the pictures, or to try to win by submitting only one title for each picture? Well, let us consider several facts.

Those who submit one title for each picture are making themselves Picturegame Participants and then turning around and making themselves Picturegame Judges. Of course, it is easy to win any game, if we ourselves pass on our efforts! If you were in a story-writing competition, you would think your story pretty good, wouldn't you? You would say "that is a fine story—it's a world beater!" You just give it first as a judge. But when the judges of the competition pass on all stories from all participants they perhaps would think some other story much better than yours. Isn't it better to submit all your ingenuity, all the good titles you have found in the Catalog and let the judges passing upon ALL of your shrewdness designate the winning titles themselves?

WITHOUT FAIL, GET THE COMBINATION CATALOG AND REPLY BOOK TODAY. SUPPLY IS RUNNING LOW—AND YOU NEED THAT BOOK BADLY.

HOW THE CHECKING OF THE SETS OF ANSWERS WILL BE DONE:

If you have the handy Reply Book, all you have to do is to read Page 47 and when you are ready to turn in your set of answers, look up this Page 47. It contains full and complete instructions for you to check your sets of answers.

KEEP A DUPLICATE SET OF YOUR ANSWERS AT HOME AND DO NOT LOSE IT.

GET THE CATALOG AND REPLY BOOK AND, CHECK YOUR OWN SET OF ANSWERS.

If you are submitting a set of single pictures and coupons you must keep a duplicate set of your answers at home. At the proper time the TRIBUNE will publish a list of the BEST titles for the thirty-five pictures as decided by the judges. You are to clip out this list of best answers from this newspaper. Then you are to check this list with your list of titles at home. Upon comparison you will quickly see if you had the correct title for Picture No. 1, for Picture No. 2, and so on. You are now to write down on your duplicate list whether you got the correct title for Picture No. 1 and how many incorrect. Then the same for Picture No. 2, and so on until you have checked over the entire set of thirty-five pictures.

THREE SETS OF ANSWERS: You are permitted to submit as many as three different sets of answers. You should take advantage of this opportunity to increase your chances of winning the first prize of \$250 cash. Submit at least one extra set of answers. Submit all of the possibly good titles you have found in the Catalog. An extra dollar spent today may mean the \$250 cash to you.

This is the way for you to double your winnings in the Picturegame: Just get a relative, friend or acquaintance to give you a six months' subscription to THE TRIBUNE. They do not have to pay in advance, simply agree to take the paper, then whatever prize you win will be doubled. Get a new subscriber today and double your prize.

Nervous Periodical Headaches

This trouble commonly called "sick headache" is said to be due to an accumulation of urea in the system. Often it is stated that a poor condition of the blood is a cause of these headaches, or that it is a nervous condition; and in certain cases, no doubt this is true.

Where treatment is demanded, it is more for the pain than anything else, and Dr. A. F. Schellshmidt of Louisville, has found anti-kamnie tablets give prompt and satisfactory relief. "Best should be insisted upon," he says, "and the patient should go to bed, darken the room, and all the adjacent and family should be as quiet as possible. An anti-kamnie tablet should shorten the attack. The bowels should be kept open with 'Aristol' a hot bath and a thorough rub-down with a coarse towel, often give grateful relief. Two anti-kamnie tablets when the first signs appear, will usually prevent the attack. During an attack, one tablet every hour or two will shorten the attack and relieve the usual pains and vomiting. These tablets may be obtained at all druggists. Ask for A-K tablets. They are also unexcelled for nervous headaches, neuralgia and all pains.

Not a Bite of Breakfast Until You Drink Water

Says a glass of hot water and phosphate prevents illness and keeps us fit.

Just as coal, when it burns, leaves behind a certain amount of combustible material in the form of ashes, so the food and drink taken day after day leaves in the alimentary canal a certain amount of indigestible material, which if not completely eliminated from the system each day, becomes food for the millions of bacteria which infest the bowels. From this mass of leftover waste, toxins and poisons, which poisons are formed and sucked into the blood.

Men and women who can't get feeling right must begin to take inside baths. Before eating breakfast each morning drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash out of the thirty feet of bowels the previous day's accumulation of poisons and toxins and to keep the entire alimentary canal clean, pure and fresh.

Those who are subject to sick headache, colds, biliousness, constipation, others who wake up with bad taste, foul breath, backache, rheumatic stiffness, or have a sour, gassy stomach after meals, are urged to get a quarter pound of limestone phosphate from the drug store and begin practicing internal sanitation. This will cost very little, but is sufficient to make anyone an enthusiast on the subject.

Remember inside bathing is more important than outside bathing, because the skin pores do not absorb impurities into the blood, causing poor health, while the bowel pores do. Just as soap and hot water cleanses, sweetens and freshens the skin so hot water and limestone phosphate act on the stomach, liver, kidneys and bowels.—Advertisement.

An Unfailing Way to Banish Hairs

(Beauty Notes)

Ugly hairy growth can be removed in the privacy of your own home if you get a small original package of delatone and mix into a paste enough of the powder and water to cover the hairy surface. This should be left on the skin about 2 minutes, then removed and the skin washed and every trace of hair will have vanished. No harm or inconvenience can result from this treatment, but be sure you buy real delatone.—Advertisement.

WOMEN'S SOCIETY HOLDS CONVENTION

Order of Eastern Star Flocks to
Santa Barbara for the
Annual Session.

SANTA BARBARA, Oct. 17.—The annual address of the Grand Patron this afternoon was to be the first business at the opening of the annual meeting of the grand chapter of California of the Order of the Eastern Star, which will be in session here until Friday night. Many of the expected 700 delegates from all parts of the State have already arrived. Others came this morning, which was devoted largely to the registration and welcoming of the delegates.

Immediately after the Grand Patron's address was to come the address of the Grand Matron, after which the Grand Secretary and Grand Treasurer were to read their reports. Tonight there is to be a large reception and ball at one of the hotels. It is tendered the grand officers and delegates.

Tomorrow and Thursday are to be the busy days of the meeting. The election

She Darkened Her
Gray Hair

A Kansas City Lady Darkened Her
Gray Hair and Stimulated Its
Growth by a Simple
Home Process.

She Tells How She Did It

A well-known resident of Kansas City, Mo., who darkened her gray hair by a simple home process, made the following statement: "Any lady or gentleman can darken their gray or faded hair, stimulate its growth and make it soft and glossy with this simple recipe, which they can mix at home. To half-pint of water add 1 oz. of bay rum, 1 small box of Eucalyptus Compound and 1/4 oz. of glycerine. These ingredients can be purchased at any drug store at very little cost. Apply to the hair every other day until the gray hair is darkened sufficiently. This mixture relieves itching and is excellent for dandruff. It does not stain the scalp, is not sticky or greasy and does not rub off. It will make a gray-haired person look 10 to 20 years younger."—Advertisement.

Whistles Blow! Fire Lads Race

But Only Lone Victim
of Bandit Waits

SAN FRANCISCO, Oct. 17.—When Conrad Peters, a mechanic of Martinez, was forced to stand and deliver in the face of three leveled revolvers held by a trio of robbers in Chinatown at 3 o'clock this morning, he determined to effect the capture of the culprits even though he used all of the machinery of the city government in so doing.

Hardly had the footpads turned their backs on him when he caught sight of a fire alarm box, smashed the glass and pulled down the lever. It mattered not that forty firemen asleep in their beds were forced to respond to his call and that 1000 residents were awakened by the clanging of the bells and the rush of the engines through the still night air.

Peters was determined on vengeance. The fire department responded and so did the police, but the lone victim had attracted a crowd of belated wanderers and the robbers made good their escape. Peters explained to Patrolmen Broaders and Dulles that \$15 in coin had been taken from him. He was taken before the captain of detectives and it was decided not to charge him with turning in a false alarm.

Woman Electrocutured While in Bathtub

CHICAGO, Oct. 17.—Standing in her bath, Mrs. May DeLuce reached for an electric heater and the light fixture at the same time and was instantly killed.

Officers takes place tomorrow. It is understood there will be no contests for the higher offices. Indications are that H. W. Beatty of Santa Barbara will be elected Grand Patron, while Dr. Maud Nobel Haven of San Francisco will be chosen Grand Matron. Mrs. Kate J. Wilkins of San Francisco, Grand Secretary, who has held that office since 1912, it is believed will be re-elected without opposition.

Committee reports will occupy most of the time Thursday. However, other business will be transacted. On Friday the business of the Grand Chapter will be concluded with the installation of the newly elected officers. Most of the sessions are open only to the officers and delegates and their substitutes.

PROPOSE RADICAL CHANGE IN PRAYERS

Episcopal Convention May
Also Change the Ten
Commandments.

ST. LOUIS, Mo., Oct. 17.—Revision and shortening of five of the Ten Commandments as they appear in the Book of Common Prayer and the elimination of Good Friday prayer, which classes Jews with "Turks, infidels and heretics," were proposed in the report of the joint commission on the Book of Common Prayer submitted to the general convention of the Protestant Episcopal church today.

It was proposed to eliminate portions of the first five commandments on the ground that the arguments for the observance of Divine Law in the Ten Commandments may actually be understood in the laws themselves, and do not shorten and more more impressive the church service. Further, it was held that the reasons which applied in Israel do not necessarily apply today. The revised version of the five commandments as proposed follows:—Prayer book No. 2:

1. Thou shalt have no other Gods but me.
 2. Thou shalt not make unto thyself any graven images, nor the likeness of anything that is in the heaven above, the earth beneath, or in the waters under the earth; thou shalt not bow down to them nor worship them.
 3. Thou shalt not take the name of the Lord, thy God, in vain.
 4. Remember that thou keep holy the Sabbath Day.
 5. Honor thy father and thy mother.
- The commission's report recommended that the present Good Friday prayer, "Have mercy upon all Jews, Turks, infidels and heretics," be revised to read, "Have mercy upon all who know Thee not as revealed in the Gospel of Thy Son," thus eliminating a classification which to many has been objectionable. Numerous suggestions for the enrichment of the prayer book to meet modern conditions were advanced. Among these were the adoption of prayers for laborers for the army and navy, for schools and colleges, for State legislatures and a patriotic prayer for independence day.

COW ATTACKS BOY.
PETALUMA, Oct. 17.—The 2-year-old son of Mr. and Mrs. Antonio Morgan of Valley Ford was attacked in a field by a cow when a ranch hand attempted to drive the cow and its calf into a barn. The fact that the points of the cow's horns are turned in probably prevented the child from being killed.

Moral Censor Decides Picture Is Salacious

Chief of Police Walter J. Peterson, as "moral censor" for the city, last night ordered the stopping of a film production known as "The Garden of Knowledge," being shown at the Broadway theater, holding after viewing it, that it was "disrespectable." Although the order to discontinue the showing of the film was made yesterday afternoon, Peterson permitted its exhibition for the last time last night.

"This picture is salacious, without plot, without excuse and entirely disgusting," Peterson said today in discussing his action. "Pictures of this nature, in which nude women are shown in a manner such as that employed in this picture, is not to the depiction of nude women that I object, particularly, but to the fact that there is no plot or reason for their appearance in this particular film."

Delinquent Taxes Run Into Millions

State Controller Chambers is surveying the delinquent tax land situation in the State for his biennial report to the Legislature in January. No one knows the value of delinquent property in California, but it is said to be well up in the millions. Chambers says that undoubtedly if people who desire to get hold of valuable parcels of land would apply to the tax collector of the county they would secure information of great value to them.

Many Delegates to Attend Jovian Session

INDIANAPOLIS, Ind., Oct. 17.—Thirty-five hundred delegates came to the city today to attend the annual convention of the Jovian Order of the United States, an organization of electrical men. The convention will be in session four days.

Called Him Names, Is Complaint in Lawsuit

As the result of a falling out between two Berkeley real estate men, F. R. Panko has commenced in the superior court a suit for \$10,000 alleged slander against Percy H. Burns. The plaintiff alleges that last August the defendant called him a "thief, liar and crook" and later accused him of stealing commissions from him.

CARTOONIST SOUGHT.

SAN FRANCISCO, Oct. 17.—Donald Garber, cartoonist and illustrator, is badly wanted by Chief of Police J. J. Murphy of Butte, Mont., in order that he may be hurried to the bedside of his dying mother. Garber is supposed to have worked on papers in the bay cities four years ago, and if his present whereabouts is known, immediate communication should be made either to Chief Murphy or Chief of Police White of San Francisco, who received an urgent request to find him today.

WAS BUS-BOY; IS NOW A NOBLEMAN

Worked Incognito in Cafeteria; Now Again in His Hotel Suite.

SAN FRANCISCO, Oct. 17.—After working for months as a bus-boy in a local cafeteria, "Charles Serjeant," a bus-boy, today is known to the world as Sir Charles Serjeant. His identity first became known when he entertained at the St. Francis, where he has been staying for the past week, in honor of Eugene Compton, manager of a Kearny street cafeteria.

For months he has worked in the cafeteria incognito, although possessed of an income of \$75,000 a year. Finally, after he had earned his own living long enough to prove that he could stand on his own feet, he returned to the hotel, where his private secretary and his money awaited him.

Six months in the world's hardships have made a man out of him, he declares. "They taught me to be a good bus-boy," he adds. While in the cafeteria he lived at the Hanna Hotel on Bush street. He appeared to be the up for a suit of clothes and associated with fellow employees of the cafeteria the whole of the time.

According to Burke's Peerage, Serjeant is the brother of the late Lieutenant Colonel Sir William Charles Biden Serjeant, Knt, Bch, (1807) O. B. (1804), late commander Fifth Batt, Rifle Brigade; P. R. G. S.; Knt of Grace; St. John of Jerusalem in England; vice-president of London Cornish Association; commander Fifth Batt, in South African war. He was born in 1857.

Sir William's father was Captain Charles Eldon Serjeant of St. Bene's Abbey and Barn Park, Cornwall. His grandfather was William Serjeant of Barn Park, who founded a philanthropic institution in Naples, still in existence. Sir Charles has turned this institution over to the war office. He has a villa near Naples and a fortune of \$5,000,000.

Chicago Dentist Is Shot by Daughter

CHICAGO, Oct. 17.—Miss Fern Roberts, 18, who shot her father, Dr. Grant J. Roberts, dentist, three times last night, was arrested here early today. He will recover. Miss Roberts confessed the shooting today and said she had resolved to kill her father unless he consented to return to her mother, from whom he is estranged.

Doctor Roberts formerly was in the United States medical corps in the canal zone and is well known here. He was taken to the Northwestern hospital after the shooting, where an operation was performed.

To the police Miss Roberts said she was taking one of her customary evening walks with her father. She lives with her aunt and met Dr. Roberts near her home. After he refused to yield to her pleas to return to her mother, who is believed to be in New Orleans, Miss Roberts drew a revolver, she says, and shot him three times, and then fled down an alley. She was arrested at her aunt's home. Her mental condition will be examined today.

Miss Roberts was suffering from a bullet wound in her right knee, which she said was accidental. The revolver exploded in some way, she said, while running, she told the police. Her condition was not dangerous. It was said at Bridewell hospital today.

Old Records Sought; Will Case Evidence

Upon her furnishing proof of her marriage to the late Joseph P. Cowan depends the validation of claims made by Alice Bliss Cowan to his \$5000 estate, which is in the Superior Court for probate. John J. Cowan, a brother of the deceased, claims that she was never married to him, while she contends that the marriage was performed in San Jose. As a result of the contradicting testimony the case has been continued until the records can be searched. Counsel for Mrs. Cowan, who has asked for letters of administration in the estate, claims that she is, in any event, a common law wife.

Indorsky's Scissors Held Deadly Weapon

SAN FRANCISCO, Oct. 17.—Jealous over the attentions paid by another man to Miss Alice Carl, an entertainer at the California dance hall, Harry Indorsky, a tailor, is alleged to have attacked Charles Spencer, 48, sixth street, a pair of scissors at the North Hotel, 310 Columbus avenue, at 3 o'clock this morning. Patrolmen Dooling and Walsh, summoned by the proprietor, broke into Miss Carl's apartment and found the men in combat. Both were bleeding from wounds on the hands. Indorsky was charged with assault with a deadly weapon, Spencer with disturbing the peace and the woman with vagrancy.

Jobs Are Sought for Militia Members

The Fifth California Infantry having been mustered out of the regular service, a number of its members are hunting work. The military affairs committee of the Oakland chamber of commerce therefore has requested that consideration be given to the men enrolled for jobs with public and private concerns. The list includes: Seven teamsters of laborers, two chauffeurs, one musician, one salesman, one clerk tobacco store, one telephone lineman, one automobile repairer, one blacksmith helper.

Infantile Paralysis Appears at Seattle

SEATTLE, Wash., Oct. 17.—The Olympic View school, just outside the north city limits, was closed for fumigation yesterday when it was found that a 9-year-old girl attending the school was suffering from a mild attack of infantile paralysis. The county health officers said this was the only case of the disease in King county outside of Seattle. There are five cases in the city but none is serious.

Masked Thugs Rob Y. M. C. A. Employees

LOS ANGELES, Oct. 17.—Two masked men covered four patrons and the night manager of the Young Men's Christian Association basement cafeteria with revolvers early today, took about \$25 from the cash register and escaped on a motorcycle. Two kitchen employees watched the robbery through a glass door, but being unarmed did not interfere.

MAKES STRONG BID FOR NAVAL BASE

San Leandro Committee Wants New Government Plant Located There.

SAN LEANDRO, Oct. 17.—A committee of the Fitchburg Social and Improvement Club appeared before the Board of Town Trustees last night to ask their co-operation in having the proposed naval base located on San Leandro bay. The board agreed to work along with the club towards this end.

George B. Sheldon, secretary of the Fitchburg Club, pointed out that San Leandro bay has many advantages that the other proposed sites lack. He mentioned that the naval base, composed of engineers appointed by President Wilson, would arrive here about November 20 to investigate the different sites for the naval base.

As early as 1810, Sheldon said, the Fitchburg Club had first proposed the San Leandro bay site. The Fitchburg Club is seeking the co-operation of every civic body in this party of the county in its aim.

In promising co-operation, members of the town board said they would probably arrange to give the naval engineers a banquet upon their visit here.

CATHOLICS WILL DEDICATE HALL

Archbishop Hanna Will Officially Open at Opening of St. Louis Bertrand Parish.

This evening the new parish hall of St. Louis Bertrand's parish, Elmhurst, will be dedicated by the Most Rev. Archbishop Edward J. Hanna. After the ceremonies of dedication a bazaar will open to pay some of the indebtedness incurred by the parish in building the hall. The bazaar will continue five nights, closing on Saturday night with the grand drawing of prizes.

The pastor, Rev. R. Sampson, credits the assured success of the bazaar to the following active workers:

Sweet Texas Lips No Lure to Sidis

Harvard's Wonder Thinks 'Em Too Bold

BOSTON, Oct. 17.—Harvard's "infant prodigy," William James Sidis, who has just ended a year as a teacher at the Rice Institute at Houston, Tex., and returned to Harvard to study law, declared that Texas girls are bold.

"It's terrible in Texas," he told a friend recently. "They want to naturalize you, and the best way they can think of is to get you married to one of their girls. Ouch, it's fierce. The girls even proposed to me in public. It was awful. The newspapers got hold of it, and I had a dreadful time."

"How do you like the Texas girls?" some one asked.

"I don't," was his decisive reply. "They flirt too much. It was very annoying. But I am happy to say that article No. 32 of my constitution, which prohibits kissing or familiarity with girls, is still unblemished."

COUNTY SUED FOR SQUIRREL KILLING

Test Case Brought by State to Compel Payment for Farm Work.

Mandamus proceedings have been commenced in the Superior Court against the board of supervisors by the state board of health to compel the payment of \$546.45, alleged due as reimbursement to the state treasury for work done by state employees in exterminating rodents from Alameda county acreage.

Under the law it is claimed that the county should collect the amount due from the several property owners on whose lands the work was done. The state paid the claims of the men who did the work after due notice had been given the land owners that their premises were infested with weeping squirrels. The action is in the nature of a test case.

DARING ESCAPE AT JOHNET

JOLIET, Ill., Oct. 17.—Ernest Olla, a sentenced burglar, scaled the 50-foot east wall of the penitentiary with a braided twine rope yesterday and escaped. Twenty feet from where he went over the wall a guard was on watch with a rifle, but he failed to see the convict.

JAMES MADISON

Will Prohibition Really Harm the Raisin Industry?

If you are in doubt about this question, read what James Madison, General Manager of the California Associated Raisin Company has to say in a letter to the *Fresno Republican*.

DAMAGED GRAPES AND PROHIBITION

Editor Republican:—As most of my friends, who have a different view on the "Wet and Dry" proposition than what I have, are as a rule good Christian people; and as most of their arguments are from a moral point of view, I must so reason. Therefore take the liberty of concluding that they would not cause great financial loss to any person who is entirely innocent in this great public question.

If the people who have different views from mine on this subject, had been sitting in this office the last few days, I cannot but believe that their ideas would change, or at least their method of achieving their object would be changed and modified.

A number of people who have been in here the last few days have expressed themselves as thankful that they at least have the wineries, where they can sell their grapes that would have been made into raisins had the rain not spoiled them, which will enable them to pay interest on their mortgages; and they can go on living in hope for better success the coming year. Many a man has stated to me that had it not been for the Association they would have lost their properties by foreclosure of mortgage; and I am surprised at the number of people who have made that same statement, that had it not been for the wineries—where they can sell their spoiled

grapes—they would be in very serious trouble.

I believe I am conservative in stating that at least 25,000 tons of raisins, equivalent to 80,000 tons of fresh muscat grapes, have gone and will go to the wineries and will bring to the growers in round figures a million dollars.

The wineries have also been called upon to handle thousands of tons of Tokay and other varieties of shipping grapes that the rain has spoiled to such an extent that they could not be shipped to the fresh fruit markets.

The rain has been general throughout the state, and has affected all of the raisin districts.

The California Wine Association is not only taking care of the San Joaquin Valley grape growers, buying their Muscat grapes, as I understand, at \$12.00 per ton; but they have bought all of the damaged raisins in Escondido and El Cajon, in San Diego county, and if the weather does not clear, I am informed they will have to take 15,000 to 20,000 tons of additional grapes in the Lodi district.

I have always contended that the prosperity of the three branches of viticulture in California are closely interwoven, and the destruction of the wineries would cripple all three branches; that is, the raisin, table and wine grape industries, and it appears to me that the conditions now existing should prove to the voters of California that the success of the viticultural interests of this state, in all its branches, is, more or less, dependent on the wineries.

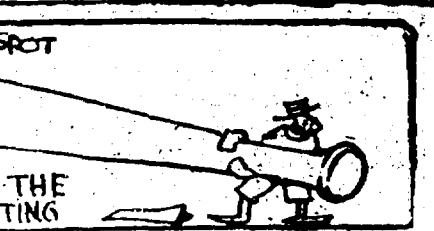

JAMES MADISON.

No one can speak with greater authority than Mr. Madison on this question. He says: "The three branches of viticulture in California are closely interwoven and the destruction of the wineries would cripple all three branches."

Bill Kenworthy has received word from Fleder Jones that he is to be played at third base for the St. Louis Browns next year. Jones must have seen Bill playing second in a certain series against Vernon. However, Kenworthy has picked up greatly in the meantime, and is displaying all his old class around the keystone sack. He may prove to be even better at third. Bill is accustomed to being booed. He started the game as a pitcher, went to the mound in the eighth, and was transferred to a second base position in the Wolverines. Now he hopes to be allowed to settle down and pass his remaining days in peace at third base.

"You're kidding," saidully. "Wbr, I thought he'd fallen off the Brooklyn bridge."

"No, no," said Sullivan. "Sullivan is a real snigger at a pugilist better than Charles Mitchell, that English champion, who was in the ring last year."

Mitchell met Sullivan twice, in New York in 1886 and in London in 1887. Sullivan was a good deal better than Mitchell, but Mitchell was a good deal better than Sullivan.

In 1886 Mitchell came from England to see Sullivan. Sullivan was a good deal better than Mitchell, but Mitchell was a good deal better than Sullivan.

Those who believe in fate, as William M. Johnston, a noted philosopher, has said, "are not fatalists. They are fatalists only if they do a good and, perhaps his entrance fee, and is not a chance to win an equal chance at the championship. To a weaker player against a star to enhance the chances of the latter would certainly be an insult."

Some agreement by which a "first, sixteen" tentatively selected before the tournament would be created in different sections of the card world would lead to the interest of the closing rounds and the eternally hurtingling the chances of any outsider to win and to lose to win. The Goddess of Chance, however, seems likely to hold sway, for picking a card player to play against each other probably would cause the same

Plans for basketball schedules under P. A. A. auspices will be discussed by J. H. Hauser and officials of the amateur body at a meeting Thursday evening in room 1058 Phelan Building, San Francisco.

Oregon is said to have the best team in the Pacific Northwest, and under the coaching of Coach Hugo Bezdek, played in the Chicago style football, made famous at Altonzo Stagg. Their game is similar to that of California, and the speed of Whittier will be lacking. Strange football will be resorted to by both teams. And the boys from the coast deck and Smith. It is thought, and the team with the most driving power will be the winner.

The record of the Oregon team is something like the story of "The Hot Tent Jack Built." It is stated that last season Oregon beat the Oregon Aggies who in turn defeated the Michigan Aggies. Michigan tied Pennsylvania. Pennsylvania was beaten by Cornell. Cornell was beaten by Cornell. Cornell eastern champions, after a hard-fought game.

BUNNY BRIEF'S CHANCES FOR

Batters has killed off Bunny Brief's chances of establishing a new home-run record for the fourth time.

The Salt Lake slugger had 23 difficult days to his credit and needed only six more to break the old record.

But Brief all of a sudden quit losing baseballs. He hasn't made a homer since he was struck out at first base last week.

With only two weeks to go, Brief has little chance of troubling the old record.

SAN FRANCISCO, Oct. 17.—Mrs. Sherwood Hopkins, socially prominent San Francisco woman, whose name has been ordered to appear in the case of John P. McLaughlin, State Labor Commissioner, is being held for \$520 alleged to be owing her maid, Miss A. Seely; \$400 of it is for a dress and jewelry.

Mrs. Hopkins made a brief call on labor commissioner's office and said she did not owe the money. McLaughlin said she was not sure whether she does owe it or not will be determined later, as the matter is still being argued. She paid wages for ten months and that is all borrowed by Mrs. Hopkins is still in Mrs. Seely's hands.

HOSPITAL SITE SELECTED.

At last a decisive step has been taken toward providing Alameda County with a general hospital adequate to meet properly the needs of the people living in the county. By a unanimous vote yesterday the county supervisors passed a resolution recording their intent to purchase the old California College site at Fourteenth avenue and East Twenty-seventh street. This site contains nearly eleven acres and has been offered to the county for \$52,500—a very reasonable price.

The board of supervisors is to be warmly commended for its action. In selecting the California College property it was guided by the report of the Board of Public Welfare which the supervisors created nearly a year ago to investigate the hospital site matter. The Board of Public Welfare was led to recommend this site because it was nearest, of all the forty or more sites offered, to the center of the county population. Price, availability to streets and roads and other considerations being favorable this was, as it should have been, the determining factor.

In adopting the welfare board's report the supervisors have conformed with their legal and moral duty. No sound or plausible objection can be advanced against the selection. If associations of persons in other districts raise a cry against it they will have to explain their action on petty and selfish grounds and the hearing they get ought to be equally as limited. The supervisors are obligated to look upon the county as one unit of population and interests and their action in this particular case has been directed by a scientific and efficient investigation of all the data.

Believing that the recommendations of the public welfare commission should have been adopted, and having strongly urged such a course, The TRIBUNE is of course pleased at the selection of the site nearest the center of county population—the California College grounds—but above that it is gratified that a selection finally has been made. This should mean, and must mean that we have seriously started the work of providing adequate and modern hospital accommodations for the people of Alameda County. That duty is of vital importance and in its fulfillment should suffer no unnecessary delay, nor brook any improper interference.

The TRIBUNE has not looked into the matter of sites with the idea of favoring any particular one and it has never expressed a preference for any particular site; its main object has been to see provided adequate facilities to correct the disgraceful conditions that exist at the county infirmary.

The united action of the county supervisors in determining upon a site for a new hospital is due to the awakened public interest in the shameful situation that now exists. That interest should be, and The TRIBUNE believes will be, maintained until the new hospital is ready for public use.

ARMENIAN WAR VICTIMS.

One of the most pathetic, and at the same time serious tragedies of the great war is the afflictions of the population of Syria and Armenia. Upon her entry into the war, Turkey, which always has dealt harshly with the Syrian and Armenian non-Moslem people, set in motion plans for their deportation to the Mesopotamian desert lands. According to reports received in this country the pilgrimage was a veritable slaughter. Thousands were killed and other thousands died of disease and starvation.

About a million exiles, mostly women and children, survive. They are in a land strange and hard to them, without shelter, clothing or food. The outside world must give them aid or they die. Conformably to a resolution adopted by the United States Senate, President Wilson

has issued a proclamation designating October 21 and 22 as days on which the people of the United States may make contributions for the aid of the stricken Syrians and Armenians.

Oakland has already made preparations to contribute to the relief fund and a committee of prominent citizens has been formed to receive and forward the money collected to the general relief committee in New York. Through the philanthropy of Mr. Cleveland H. Dodge, a wealthy New Yorker, every cent contributed to this fund is used for the benefit of the sufferers. Mr. Dodge is defraying all the expense of collecting the relief money and in addition has sent \$60,000 for immediate succor of the refugees.

Powerless to save the Syrians and Armenians from the desolation which visited them, America may do something to alleviate their sufferings and to preserve their lives until the war is ended. It is a worthy charity.

PRICE OF MURDER DECREASES.

In considering the monetary price of the murders of Santa Ysobel, Columbus and other points on both sides of the Rio Grande, the American-Mexican joint commission at New Haven may find some helpful information in the Democratic platforms of 1912 and 1916. According to the views of the administration, American lives and property are not worth as much now as they were four years ago.

From the Democratic platform of 1912: "The constitutional rights of American citizens should protect them on our borders and go with them throughout the world, and every American citizen residing or having property in any foreign country is entitled to and must be given the full protection of the United States Government, both for himself and his property."

From the Democratic platform of 1916: "The American Government should protect American citizens in their rights, not only at home, but abroad, and any country having a government should be held to strict accountability for any wrong done them, either to person or property."

President Wilson, having declared that Mexico has no government, although he has recognized Carranza, the phrase "and any country having a government," may be taken to mean that murder, rape and arson in Mexico are worth nothing at all. Inasmuch as Mr. Wilson wrote the 1916 platform and committed this artful hedging with his own hands, it is permissible for the joint commission to hold that Mexican bandits are not responsible for outrages on Americans.

Premier Asquith has asked the British Parliament for an additional war credit of \$1,500,000,000. It will be the thirteenth war loan and will bring the total of the war debt to over \$15,000,000,000. Germany has issued loans to the amount of about \$12,000,000,000. These loans mean that the people of Great Britain have been burdened with an annual interest charge of \$900,000,000 and Germany with a similar charge against current incomes of \$720,000,000. These two nations are the heaviest debtors on account of the war, but the ratio of debt to the population is approximately the same in all the belligerent nations excepting Russia and Japan. It means a per capita annual charge on account of interest alone of approximately \$25. In addition sinking funds for the payment of principals must be provided.

Testimony given in a New York divorce court discloses that the shape of a man's wrist is the thing that counts with women who are free to bestow their affection according to their choice. The standard of wrist perfection has not yet been published, but in the meantime it is to be hoped that men will confine their articles of wrist adornment to the watch. It is ample. There is no call for bracelets, ruffles or short sleeves.

Our local contemporary should not take so deeply to heart its lack of enterprise and inability to get the news of official action publicly recorded in the county courthouse. It should not continue to be "sorehead" for weeks and months because it was scooped on an open story; it is in danger of becoming a chronic dyspeptic.

THE STATE AND NATIONAL GUARD.

(From Philadelphia Evening Telegraph.)
Some of the officials of the New York National Guard are calling attention to what they believe is a complete separation of the Guard from State authority or responsibility, when the men have taken the Federal oath upon enlistment under the provisions of the new army act.

They assert that the entire National Guard is now under Federal law; that it is ruled from Washington; that the Federal Government has refused to recognize any distinctly State National Guard by declining to issue equipment to them and notifying Governor Whitman to that effect; that the State cannot legally support national forces. This view, if sustained, puts an entirely new face on the situation, and will affect that portion of the Guard of all States which has been sworn into the United States service.

We can hardly believe that anything of this kind was intended by the army act. The States themselves have need of a dependable National Guard. The larger States have expended millions of dollars to maintain such organizations, and are willing to continue such expenditures, but cannot be expected to do so if the State is to have no authority over the Guard, save that of appointing its officers, which is guaranteed by the constitution. Exclusive Federal control would lead to the creation of a separate State force in some instances.

There are other features to which attention has been directed. Pennsylvania, New York and some of the other States have expended large sums in building armories, and it is contended that if these armories are used by troops wholly under United States control, such use should be paid for. The questions are such as will lead to disputation, and will affect the efficiency of the Guard, unless they are promptly determined by decisive authority.

NOTES and COMMENT

The Los Angeles girl who came all the way to console the Mission bank bandit illustrates it over again.

The old saw was "shipping coals to Newcastle." The new one might be shipping wheat to Argentina. That is what Portland has done.

A correspondent complains that the brass in the San Francisco city hall is dull. There are likely to be those to say it is not subdued, at any rate.

The police who are looking for two missing men ought not to get discouraged. One of them is 92 years old, and is probably not able to travel very fast.

Jeremiah Lynch, some time expert on and importer of mummies, has taken to politics though still manifesting his bent. He espouses the cause of the dead ones.

A lecture announcement to the effect that "a friend of Wilson is to tell about him" is late. His enemies have already done it in a manner so complete as to leave very little more to say.

If the rule worked equally both ways the slump of one-eighth of a cent in wheat would mean about five cents in bread. But geometrical progression is in one direction only in such things.

It is noticeable how an untoward experience makes for pessimism. Dr. Aked is skeptical about the future of the church, notwithstanding that sin needs to be fought now just as badly as before the Ford fiasco.

Among the college announcements is one to the effect that "Democrats at the University of California are working for Wilson." From which we are able to see that the propaganda there that has been rather marked is bringing results.

A despatch from Los Angeles gives an account of an anomalous widow who "loves dancing but fears hanging." The news wouldn't get past except for the knowledge that the southern city is somewhat noted for its unusual characters.

A news item is to the effect that Harry Thaw was denied admittance to Matewan, having gone there on a friendly visit. Considering the time he had in getting out, it is in a degree interesting that he now finds it impossible to get in.

The ball team that is away downstairs, it may surprise a somewhat wearied public to learn, has achieved a record. It is for the greatest number of all condition defeats. Opposing clubs find it impossible to play badly enough to lose to it.

A wife, suing for a divorce, testifies that when her husband "stropped his razor in a threatening way," she thought it time to go away from there. Although the testimony showed it was the razor that was stropped and not the wife, a divorce was granted.

The fighting in the European war zones continues much as it has for twenty-six and one-half months, with "smashes" and wedges driven and one side or the other being "hurled back," but neither side, in the summing-up, seems to get much of anywhere.

It is not apparent that the San Francisco police judges have anything to fear from the proposition to make their offices appointive. Two of the four incumbents first got there through mayoralty favor, and might not have been so fortunate with everybody having a say.

ROUTED!

THE CITY OF MYTILENE

"The city of Mytilene, where the revolutionary movement against Greece's non-participation in the war closely followed the outbreak in the chief towns of Crete, has been a part of the Greek nation an even shorter time than the latter cities. As the capital of the island of Lesbos (also called Mytilene) it met the Aeolians on the important city of the Aeolians on the important city of the Aeolians, says today's war geography bulletin of the National Geographic Society.

"Originally Mytilene is supposed to have occupied a small island off the southeastern shore of the larger island of the same name, but as its double harbor soon made it the most important city of the Aeolians on the Asiatic coast, the population and commerce outgrew its island bounds, and overflowed to the larger territory. A mole or isthmus was constructed connecting the original seaport with the main island, and today the smaller islet no longer exists as such but is a promontory, with the shores of Asia Minor less than 20 miles to the east.

"The modern city is built in the form of an amphitheater around a hill which is crowned with the ruins of a fort dating back to the time of the Genesee. The population is estimated at 50,000 and the outstanding architectural feature of the place is a Greek college, which is attended by boys from the entire Aegean coast.

"Mytilene has written its name large on the pages of ancient history. Its Golden Age preceded the era of Pericles in Athens by more than 100 years. The two outstanding names in its heyday of power and culture were Pittacus, the statesman, and Sappho, the poetess. The former, whose wise and beneficent reign of ten years earned for him immortality as one of the seven sages of Greece, at the age of 39 had, with the aid of the brothers of the poet Alcaeus, overthrown the tyrant of the island. After slaying the Athenian commander, Phryn, in single combat, he was entrusted with despotic power by the Mytileneans. It was his life work to maintain a balance of power between the nobles and the commons.

"Pittacus is famous for two of his favorite sayings: 'It is hard to be good' and 'knows when to act.' "The career of the great Mytilenean poetess has been so widely advertised through the ages of dramas and novels of a notorious nature that it is only necessary to recall the fact that recent research has tended to brighten to Rome the story of Sappho's leap into the sea, from the lofty Leucadian promontory, because of her unrequited love for Phaon, has never been proved. While no one will contend that the gifted Lesbian's morals

were impeccable, it is highly possible that posterity has visited upon her head the sins of some of the more licentious pupils of her great poetic school. In any event, her position as a poetess is unassailable. The ancients accorded her a place alongside Homer, designating her as 'the poetess' him as 'the poet.' Writers who followed her called her the 'tenth Muse' and 'the miracle.' The appellation 'the beautiful,' which not infrequently occurs, is said to have referred to her verses only, for, personally, she was 'small, dark and unprepossessing.'

"Shortly after the outbreak of the Peloponnesian war, in the fifth century B. C., the ruling nobles of Mytilene forced the city to side with Sparta against the Athenians, to whom they were under an agreement to furnish a naval contingent. For this revolt the city suffered bitterly, and the story of the punishment meted out to the rebels after a long siege is one of the most dramatic in Hellenic history.

"Athens at the time of Mytilene's capitulation was still weeping for the matchless Pericles, he who on his deathbed considered it his greatest praise that 'he had never caused an Athenian to put on mourning,' and the government was in control of the mob element, led by such demagogues as Cleon. When the fate of the Mytileneans was presented for discussion before the Athenian assembly, Cleon proposed that all the men of the city, 6000 in number, should be slain, the women and children sold into slavery. The proposal was adopted and a ship despatched to bear the sentence to the conquered community. The next morning, however, reason and justice returned and the assembly hastily rescinded the heartless decree. The fleetest triremis of the Athenian navy was ordered to try to overtake the first vessel, which had a twenty-four hours' start. It was a thrilling race, with the lives of thousands of innocent people at the stake. The trireme arrived just in time to prevent the wholesale slaughter. But even the modified decree was barbarous. A thousand nobles were executed, the city destroyed and much of the land given to Athenians.

"Twenty-two years after this tragic event (406 B. C.) one of the closing episodes of the Peloponnesian war occurred in the harbor of the stricken city, where Conon, one of the ten Athenian generals chosen to succeed the traitor Alcibiades, was defeated by the Lacedaemonian admiral, Callicratides. The city of Pontus in his conflict with Rome in the first century B. C., but, in spite of this, Pompey gave the city its freedom, out of fondness for his close friend, Theophrastus, a native of the island."—National Geographic Society.

FOURTH CITY OF THE AMERICAS.

Buenos Aires is to Argentina what Paris is to France—the center of the national, industries, thought and culture. Commerce, journalism, politics, the drama, music, literature, art and social life are intensely focused there. WHY NOT A SIX-CENT PIECE?

With the rise in bread prices and trolley car fares there may be a popular demand for a 6-cent piece.

There is nothing sacred about the 5-cent nickel or the silver dime. There is no reason why all our coins above the copper cent should be 5 cents or multiples of five.

TWENTY YEARS AGO TODAY

The engagement was announced today of John W. Phillips, the senior partner of the firm of Grayson & Owens, wholesale butchers, and Mrs. Henry Martin. Their marriage will take place in a few weeks.

An old house that has stood in the middle of the block on Third street between Clay and Washington since 1849 is being torn down.

Dr. E. H. Woolsey, physician of this city, is in charge of the receiving hospital during the absence of Dr. Murray L. Johnson on his bridal tour.

Mrs. H. H. Rue of Oakland has been elected recording secretary of the Women's Synodical Society, and Miss Julia Fraser of Oakland, the Young People's secretary.

BLUCHER IN THE HOSPITAL.

At the time of the Seven Years' War there was very little knowledge of surgery, and the surgeons were often no more than barbers, inexperienced and uneducated. They were commonly known as the "Company of Pain," a name that fitted them admirably.

Lieutenant Blucher, afterward the famous field marshal, was wounded in the foot by a musket ball. At the hospital to which he was carried several surgeons began to probe the wound and cut promiscuously in its vicinity. Finally Blucher inquired, in spite of the pain, "What sort of salting are you trying to do?" "The wound is large enough already, I should think."

"We're looking for the bullet," answered one of the offended surgeons.
"Oh! Oh!" cried Blucher angrily. "Why didn't you tell me that before? I have it in my pocket." And with that he drew from his pocket the bullet, which he had extracted from the wound himself.

MY SONG.

I cannot help but sing, I said,
For joy had lately found me!
When friendly stars shine overhead,
I cannot help but sing, I said:

And kindly friends surround me.
I cannot help but sing, I said,
For joy hath lately found me.

Eminent Astronomer, Report-

Ruddy Planet in BerkeleyEarth Folk Conceited in Sup-

BERKELEY, Oct. 17.—The great stretches of wheat fields in the Dakotas may be visible to observers in Mars if they are interested in this planet, said Percival Lowell, founder of Lowell Observatory at Flagstaff, Arizona, addressing an interested assemblage at Hearst hall, University of California, last night.

Professor Lowell said that the so-called canals visible to all observers of Mars were great stretches of vegetation, thousands of miles long and hundreds of miles wide, and that there is nothing so gigantic on the earth's surface.

The theory that Mars is inhabitable is arrived at by the eminent astronomer because of the geometric accuracy with which the great fields of vegetation are laid out. He said:

"Drawing these canals, as we have called them, is impossible with the free hand. They are so precise that it is possible to accurately record them only with a rule and compass."

It seems too much to ask that nature lay her plans so carefully and bring out vegetation in absolutely geometrical figures.

Two parallel canals are exactly the same distance apart for thousands of miles. They do not follow the surface line and no man of science has ever found nature acting in this way in any age.

Long before Peary or Amundsen had reached his respective poles, our earth astronomers at Flagstaff had studied the poles of Mars and had fairly minute knowledge of their topography and general behavior.

The astronomers were able in 1911 to watch the very beginning of the formation of the polar cap and through the circumstance of its formation, showed that frost preceded ice and when the thaw came in the spring canals sprang into view. This was the fulfillment of the theory that vegetation exists on Mars, which indicated that the canals which we had considered as waterways of gigantic size were great stretches of land fed by these canals which were too small to be seen.

The seasons on Mars, which are longer than ours, were, when in observations, a period of six weeks sufficed to change the blue

OAKLAND TO LOSE DOG;
ALSO ACORNS AND WHARF;
SEAL OF CITY IS DOOMED

The old city seal will soon be no more. With Oakland's three former city halls, it is to be cast into the discard.

Like the old oak in the city hall plaza, it has served its time. The oak still stands, a sad skeleton, faced on all sides by skyscrapers and office buildings. But the seal will no longer be forced to bear the cynical gaze of a public blind to its symbolic beauty.

The seal of the city of Oakland never boasted artistic excellence. For many years it pained the pride of former Mayor Frank K. Mott, who dreamed long and earnestly of a new design that should be at once chaste and dignified, to symbolize "My City—Oakland."

"That's the old De Fremery dog," Mayor Mott would say sadly, as he would gaze mournfully at the seal emblazoned in gold on a new bond issue. "We ought to have a new seal."

Mott was mayor some ten years. But though he muttered criticism each year of the ancient seal, the De Fremery dog continued to sit upon the official representation which appeared upon all formal documents, from police court subpoenas to the certification upon the oath of office of a new mayor.

Oakland was incorporated as a town in 1852, but it was not until several years later that the community achieved the dignity of an official seal with a dog and a wharf and an oak tree on it.

It is declared that the dog was not a De Fremery canine at all, but belonged to Horace W. Carpenter, Carpenter, according to one tradition, had the dog placed on the wharf to guard the waterfront, which he had gained in a "dicker" with the city when he was mayor, giving a little old red school house on the hill in exchange.

The seal actually displays several green which we have come to know as vegetation to a light chocolate color.

PLANET OF EXTREMES.

Mars is a planet of extremes as is the desert, but the mean temperature we have figured to be about 48 degrees Fahrenheit. An interesting experiment was made in observation of the polar cap in 1916 and the melting away of the frost was noted. At the same time the melting away of the frost on one of the buildings at the observatory was noted and each kept pace with the other.

vessels in the foreground, a "wind-jammer" at anchor with all sails set, a row boat bigger than the sailing vessel that had rounded the horn, and the wharf, either Carpenter's or De Fremery's, is upon the most approved type. It has several pilings, a fender strip, an apron, and everything appropriate to the dignity of the only landing place in the city.

Behind the wharf there is depicted "the Encinal," a grove of trees, which gave the first name to this community. The trees are not many. But they have all the beauty of the engraver's art shined upon them. With a magnifying glass it is possible to count the acorns, so no one need doubt that they are oak trees. There is no label, but it has never been doubted that they were intended for oak trees. No one has ever called them carrot tops, or even spinach.

In April, 1854, Mayor Carpenter addressed a message to the city council regarding these trees. He said:

"The chief ornament and attraction of this city consists doubtless in the magnificent grove of evergreen oaks which covers its site, and from which it takes both its former name of Encinal and its present one of Oakland. Their preservation ought to be with you as it shall be with me, a subject of peculiar care. The destruction of a single tree on whose land soever it stands, should be considered a public injury. I recommend the passage of an ordinance for the protection of shade trees, imposing the heaviest penalties for its infraction."

The ordinance was passed. Almost the only oaks left are the dead one in the plaza and that on the city seal. And that on the old seal will soon be gone. Mayor John L. Davis has leveled the shaft of his criticism at the municipal insignia of the oak, the dog and the rowboat. The city seal, and that on the old seal, will soon be gone.

Firm in Belief That Honor
System Will Live; Is Ready
to Help Penal Institutions"No Bad Men in World," He
Says; Some Are Insane and
Should Be Locked Up; Death
Should Not Be InflictedBy GEORGE MARTIN.
NEW YORK, Oct. 17.—Out as
"honor system" warden of Sing Sing,
Thomas Mott Osborne is established
in New York today as consulting en-
gineer on prison reform to any penal
institution in the world. Services
free.

"I am still convinced that there are no bad men in the world," said Osborne today. "I am sure my method is right. Some day it will be the only one in use."

"Do you think," Osborne was asked, "that Dr. Arthur Warren Waite, who confesses to murdering his wife's parents, is a good man? Or is he bad; inherently criminal and vicious?" He answered:

"I think Dr. Waite is insane. Not violently insane, but excessively so. His mind is warped and distorted. He is murdering his father and mother-in-law by poison is not surprising."

I have studied Waite in the death house at Sing Sing. His predominant characteristics are excessive self-centering, utter selfishness and extreme sensuousness.

WAITE EXCEPTION.

"Do you think a man like Waite can be redeemed?"

"No. But that means nothing. Waite is one of his kind—a generation. He is unique. He is not even a type."

But Waite is under sentence of death. I suggested, "Do you think he should die in the electric chair?"

"No. I would not kill Waite. I would not kill anybody. Waite should be locked up for life, I think."

"In solitary?"

"No. He should be permitted to mingle with the other inmates. He will always be as he has been and is now, but he should not be executed."

"What does he say about himself?"

"He says what I very seriously doubt; that he has had a change of heart. He writes poetry. Oh, awful poetry! And he reads the Bible. Poor fellow, I believe he thinks he is having a fine time. Just as he had them when he was racing up and down Broadway in an automobile and pretending to perform delicate operations at hospitals, he still has his feminine address and he reveals in them just as much as ever."

SYSTEM WILL LIVE.

You would be astounded at the number and sort of women who write to him. You should see the line of gush that some of them send him, to which he replies in kind. One woman has discovered that she is his soul-mate.

But Waite's case stands alone. In all but these exceedingly rare instances the honor system is an absolute success. We have reduced the form to fundamentals and now hereafter it shall hold itself in readiness to help establish the system wherever it is asked. All I demand is that the head of the institution be in sympathy with the idea. I expect address and the reward of doing some of my lectures and other data to textbook form.

Depend upon it, the honor system may be hindered, but it cannot be hurt by its enemies. It will go right along, whether I am at Sing Sing or in the grave.

Oil Strike Is Not
Imminent, Declared

BATONNE, N. J., Oct. 17.—Despite a record of three persons dead, many wounded and pitched battles between strikers and police marking its progress thus far, the strike of oil workers here will go on, so far as the Standard Oil Co. is concerned.

Superintendent Hennessy today snubbed the strikers' committee of ten, which asked him to end the strike by giving them more money, the men declared.

There was neither bloodshed nor serious rioting up to noon today, but the feeling is a strong as ever. Early morning reports of rioting dwindled later to an irresponsible gag, who fired several shots in the air.

SAN FRANCISCO, Oct. 17.—That his wife told him she was acquainted with crooks and was ready to have him killed, and that she threatened to poison him and bestow her affections on an affiant, are the charges made today in a divorce action filed by Fred L. Rilling against Rose Rilling. The husband sets forth that his married life covered over nine months and that then his wife's fondness for Claude Fox made marital existence no longer endurable. He adds that Mrs. Rilling told her he was not as good as the dust under Claude's feet.

Hundreds of Men and Women
Are at Work Decorating the
Great Arena and Building
Booths for Coming ExhibitsCharity Ball Will Close Fete of
Three Days at the Municipal
Auditorium; Many Entertain-
ment Features Are PlannedDecorating for the colossal Baby
Hospital bazaar—so that it will be
quite complete for the opening at 10
o'clock on Thursday morning—will
occupy hundreds of workmen and the
women and young girls of east bay
society interested in the hospital, all
day tomorrow.

The big arena of the city auditorium, where this largest of the charity fairs of the year so far will be in swing for Thursday, Friday and Saturday, will be transformed into the nearest thing possible to an exhibition building at an exposition. Twenty or more booths, filled with articles of clothing, the fingers of hundreds of women working for the benefit of the Baby Hospital will wall the sides, and down the center will run an Italian street fair.

HUGE LUNCHEON BOOTH.

Green has been chosen as the predominant color decorating the balcony to set off the brilliant costumes of the vendors in the markets and in many of the booths. Piedmont Park will be robbed of palms and greenery, and many of the gardens of the county will send in potted plants, so that when the fair is removed Saturday afternoon—the masked ball that will wind up the bazaar that evening the arena will still be festive.

Two of the features of the bazaar will be a tea booth run by Mills College students, and a cafe where it will be possible to serve luncheon to eighty people at a time. At the tea booth, which represents the Mills contribution to the benefit, young women students will serve tea and toast and marmalade prepared by them under the direction of their domestic science instructor. Tea will be served from 3 until 6 o'clock on Thursday and Friday afternoons.

The cafe is to be an elaborate and modern plan. A complete electrical apparatus for both kitchen and diningroom will be installed and electrically cooked menus will be served on all three days of the bazaar from 12 until 2 o'clock. On Thursday a special Mexican luncheon will be served and on Friday fish dishes will prevail. It will be possible to order a la carte at the cafe. The cafe is in direction of this department.

PUNCH AND JUDY SHOW.

Among the amusement features, besides the movies, that will be on the screen in the theater from 6 o'clock Thursday and Friday, is to be a real Punch-and-Judy Show for all day Thursday. This will be one of the only two of these shows around the bay. This concession is in charge of Joseph K. Brown of San Francisco.

Saturday, when the bazaar closes at 3 o'clock in order to permit the workmen to remove the booths and put up boxes for the evening's ball, there is to be a children's matinee in the form of fairy scenes from the Midsummer Night's Dream given by a cast of Berkeley children trained by Mrs. John Howell. This production already given in Berkeley and in San Francisco will be staged in the Auditorium Theater.

BALL TO BE EVENT.

The wind-up of the bazaar, the elaborate masked ball, will open late, and last night a thirty-minute cabaret entertainment arranged by Porter Garnet, who has directed many of the University of California pageants and Bohemian Club jinks, was given. Grand as the cabaret was, others in the cast will be Mrs. Arthur Thomas Rickard of Berkeley, Ralph Phelps and twenty-four of the most graceful dancers from among the University of California co-eds chosen to personify young moon-beams.

Besides the sixty boxes that are part of the arena, it has been necessary to plan for thirty more with commensurate those who wish box-parties. These will be erected on the floor, in a tier below the others, and all but a very few have already been reserved.

Last year the Baby Hospital bazaar netted several thousand dollars for the maintenance of the institution, and this season it is expected to greatly increase the profits in order to meet the ever-growing needs and the larger number who come there seeking aid.

First Waiters' Strike
Case Before Court

SAN FRANCISCO, Oct. 17.—Superior Judges Crothers and Deasy, sitting en banc today heard the contempt proceedings against the officers of Cooks and Waiters Union No. 41 in connection with the strike as affecting Boon's Cafeteria. The case was taken under submission with the understanding that the judgment of the court should govern all the other cases. The hearings will come up to Judge Deasy's court October 18 and before Judge Crothers October 20. On Friday Superior Judge Sturtevant will hear seven petitions of other restaurants for injunctions asking that they be made permanent.

In Three WordsIt's a New Dance and
May Be Modest

"What's a 'Petite Fantasio Lunario'?"

This is the question the committee arranging the Baby Hospital benefit at the Auditorium are asking. They are going to have one; Porter Garnet of the University of California has said it. But that is as far as they are in on the secret, so far.

The "Fantasio Lunario" will be a novel spectacle at the hall. The stage, in solid black, will be lighted only by a big electric moon and stars, and the ceiling of the building will also be lighted with blue stars. There will be a "dance of the moonbeams" with other spectacular features, designed by the pagan expert, "The Affair," says Garnet, "will not be a pageant. I did not know what to call it, so I invented this title."

That is the whole of the mystery of "La Petite Fantasio Lunario."

Theft of Light Bulbs

Iva Thorp was arrested by State Railroad Policeman Jerry Melvor this morning with forty-five electric bulbs in her possession. Thorp was taken into custody while unscrewing the bulbs from their sockets in electric cars of the Southern Pacific Company at the Oakland pier. According to the authorities, Thorp has taken more than 300 light bulbs from the cars of the corporation's cars in the past two weeks. A charge of petty larceny will be lodged against her.

Hindus Are Denied
American Citizenship

BL CENTRO, Oct. 17.—The application of a large number of Hindus for admission to American citizenship was dismissed today by Superior Judge Franklin J. Cole after the East Indians had been given an opportunity to prove that they belonged to certain castes, in order that the case might be further considered.

They had no attempt to produce this proof, however. None have ever been admitted to citizenship here.

Publicity Bureau Is Proposed for Church

ST. LOUIS, Oct. 17.—Use of efficiency systems in the conduct of the business of the church, coupled with a larger publicity for church propaganda, is being urged by delegates to the general convention of the Protestant Episcopal church, in session here today. As a step toward this end the Rev. James Wise of St. Louis, suffragan bishop-elect of Kansas, said he had drafted a resolution for presentation to the convention looking toward the establishment of a permanent church publicity commission having for its purpose the furthering of the work of the church.

The house of bishops today notified the house of deputies that it had adopted a resolution permitting native priests of the Chinese Protestant Episcopal church who have been elected to the episcopate to be consecrated by Chinese bishops. Previously it had been necessary for such elections to be confirmed by the United States house of bishops.

T. J. Quinn was elected chairman of the committee of arrangements. Others on the committee are: Supervisors Andrew J. Gallagher, John O. Walsh and John L. Hynes, Thomas J. Jordan, Patrick J. Roddy, John P. Brannick, John M. Hannigan, Eneas Kane and Austin Hollan.

Monument Dedicated to Robert E. Lee

GETTYSBURG, Pa., Oct. 17.—The much discussed monument to General Robert E. Lee, commander of the Confederate forces at the battle of Gettysburg, was dedicated on Gettysburg field today. The monument stands in West Confederate avenue, close to the Round Tops, and is a tribute to "A Son of Virginia." Many prominent men and women from both North and South were present for the dedication.

MOTOR EXPERT VISITS COAST

Briscoe Factory Executive Is Guest of Oakland Auto Company.

By EDMUND CRINNION.

Vice-President L. E. Wilson of the Briscoe Motor Corporation, Jackson, Michigan, who is one of the biggest figures of the automobile industry, arrived in Oakland yesterday for a brief visit with Manager Ben Hammond of the Oakland house of the Pacific Kiesel-Kear branch. Accompanying Wilson was W. L. Houghson, head of the coast company.

Wilson stated that his statistical department at the Jackson, Michigan factory showed that some Pacific Coast counties had one car to eleven persons, and others ranged as low in motor car sales as one car to forty persons. Mr. Wilson stated that the Pacific Coast per capita car figures of the very efficient statistical department at the Jackson, Michigan factory showed that some Pacific Coast counties had one car to eleven persons, and others ranged as low in motor car sales as one car to forty persons. Mr. Wilson stated that the Pacific Coast per capita car figures of the very efficient statistical department at the Jackson, Michigan factory showed that some Pacific Coast counties had one car to eleven persons, and others ranged as low in motor car sales as one car to forty persons.

Mother Sobs for Runaway Daughter

MARIE CHIAPIANO.
Mrs. Chiappino and Baby Wait for Absent Girl

"She is still gone," sobbed Mrs. Margaret Chiappino, mother of little 14-year-old Marie Chiappino who ran away from her home last Friday. "When I came home from work at noon Friday," explained Mrs. Chiappino, "I waited for her to return with the baby so we all could eat lunch together—but she didn't come back. She had left the baby with my neighbor above," explained Mrs. Chiappino, pointing to the upper part of the house at 3874 Shafter avenue.

"When I looked for her in the house, I found she had taken her pictures, and her clothes and emptied my purse—then I knew she had run away." When asked if there was any reason her daughter should have left home, her mother said there was none. "I cannot understand it," she explained.

Mrs. Chiappino, who works in a laundry in the vicinity of her home, would like to go to Stockton to look for her daughter, for the Oakland police believe little Marie bought a ticket for that place, but Mrs. Chiappino said she could not leave her work as she must provide for herself and three-year-old baby boy.

Although Marie's mother wanted her to go to school, she has not been attending regularly of late, explained the mother. The police department of Oakland has notified the Stockton police in the hopes that they may be able to locate the missing girl.

PASTOR MUST SHOW DEFENSE AT TRIAL

Case of Lea Whitney Against Foster Father Involves Rev. Holmes.

MODESTO, Oct. 17.—Summoning Rev. A. A. Holmes, local Baptist minister, against whom grave charges were made by 17-year-old Lea Whitney, the defense in the case of George F. Whitney, a barber, also accused by the girl, will endeavor to clear the present defendant by questioning the pastor as to his relations with the girl. This was learned in court today, when it became known that summons have been issued for the minister to testify in the trial.

"Do you know Rev. A. A. Holmes?" was the first question asked each juror during the picking of the venire. District Attorney J. M. Cross, who asked the question, declined to explain the reason for this method of picking jurors.

The unexpected charges of the girl against the minister were made at a preliminary hearing of the case several weeks ago, and created a sensation here. Since then the pastor has been filling his pulpit, his congregation expressing faith in him. The church meeting held every man be presumed innocent until proven guilty, and passed resolutions expressing the belief that the pastor can clear himself.

The defendant in the present trial is George Whitney, foster father of the girl. She was adopted into the Whitney family as a small child.

The girl did not mention Holmes in her testimony, no direct question being permitted in the present trial on that issue.

Man and Girl Found Dead Among Ruins

FLASHER, N. D., Oct. 17.—That P. B. Wilkinson, a farmer, shot and killed his daughter, Gladys, and then killed himself and set fire to the family home near here, was the conclusion reached by authorities here yesterday with the finding of the two bullet-riddled bodies in the ruins of the house. A shotgun was the weapon used.

Domestic difficulties, it was said yesterday by neighbors, prompted Mrs. Wilkinson and another child to quit the home two hours before the fire was discovered.

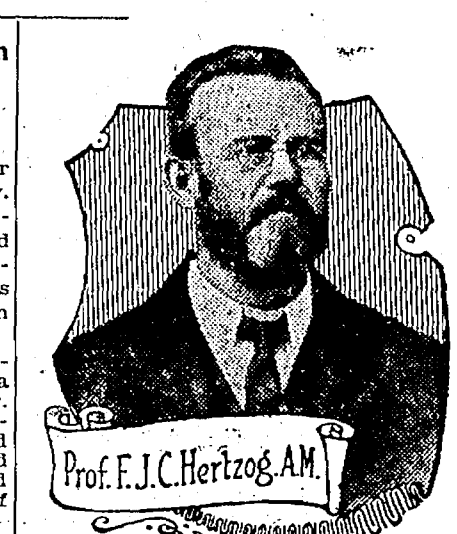

McCormick Advances New Plan for Peace

CHICAGO, Oct. 17.—Warring countries of Europe would be asked to enumerate the objects for which they are fighting and place their peace terms in concrete form in the hands of selected neutral countries, according to a plan for world peace made public today by Hargis W. McCormick, wealthy Chicagoan. A pamphlet received here. The role of the neutral countries would not be that of mediators, but of custodians and transfer agents.

Mr. McCormick is expected to return soon from Switzerland, where for a year or more he has been in contact with diplomats and interned officers and soldiers who are the Swiss chief virtual clearing houses of information concerning the war.

Prof. Hertzog Praises This Perfect Laxative

Dr. Caldwell's Syrup Pepsin an Ideal Remedy for Constipation.

In every family there is more or less occasion for a laxative remedy. It is to meet this need that Dr. Caldwell's Syrup Pepsin is prepared, and that this combination of simple laxative herbs with pepsin fulfills its purpose as proven by its place in thousands of American homes.

Prof. F. J. C. Hertzog, the well-known linguist, 2341 North Orlena st., Philadelphia, Pa., wrote to Dr. Caldwell that he has used Dr. Caldwell's Syrup Pepsin in his household with excellent results and that he and his family consider it indeed a friend in need, and always keep a bottle of it on hand.

Constipation is the direct cause of much serious illness and is a condition that should never be neglected. Harsh cathartics and violent purgatives should never be employed to relieve constipation, because the very violence of their action shocks the entire system. A mild laxative, such as Dr. Caldwell's Syrup Pepsin is far preferable, being mild and gentle in its action, without griping or other pain or discomfort, its freedom from all opiate or narcotic drugs makes it an ideal remedy for children.

Dr. Caldwell's Syrup Pepsin is sold in drug stores everywhere for fifty cents a bottle. To avoid imitations and ineffective substitutes be sure to get Dr. Caldwell's Syrup Pepsin. See that a face simile of Dr. Caldwell's signature and his portrait appear on the yellow carton in which the bottle is packed. A trial bottle, free of charge, can be obtained by writing to Dr. W. B. Caldwell, 455 Washington st., Monticello, Illinois.

Beet Crop Contest Is Aired in Court

When Thomas B. Dakan, a Newark land owner, agreed to give F. Fukunaga, a Japanese rancher, three-fourths of the profits from cultivating and harvesting a beet crop on his property he did not relinquish all claims to his share, according to his testimony in a suit brought to set aside a mortgage of \$125.00, made by Fukunaga to the Alameda Sugar Company. Fukunaga claimed that his intent was only to mortgage his interest.

Old Murder Charge Must Be Answered

SAN JOSE, Oct. 17.—Charged with murdering Paul Spana two years ago because Spana refused to play an accordion for a party of serenaders, Rocco Marcarone was arrested today. Spana was slain as the result of a shooting episode when a party of young Italians quarreled during their festivities.

BORAH ARRAYS WILSON. COUER D'ALENE, Idaho, Oct. 17.—Attacking what he called the extravagance of the present national administration, Senator W. E. Borah in a speech here last night said that "the Democratic party instead of economic planning, has created 31,000 additional offices and salaries for its particular friends." Discussing foreign affairs, Senator Borah referred to President Wilson's notes as "the International school of correspondence."

City Council Is All Against Single Tax

SAN JOSE, Oct. 17.—The city council in regular session tonight adopted a resolution, introduced by Councilman W. L. Atkinson and directed against the single tax amendment to be voted on in November. The vote was unanimous. The resolution condemns the amendment and asks the city council to request all citizens to vote against it.

The amendment would lay taxes on land values only, and would exempt personal property, money and credits; that the proposed scheme would reduce the revenue from San Jose for 1917 to \$100,000, an insufficient amount.

Many other business men were the reports of city officials who had attended the city planning conference at Berkeley last week. They were City Manager Reed, City Clerk Tripp and City Attorney Lamb. All expressed themselves as satisfied with the visit.

Same Names Add to Queer Legal Tangle

SAN JOSE, Oct. 17.—Tony Freitas and Joseph Freitas have puzzled the courts here the most unique experience on record. Both were up before the police court yesterday charged with larceny in different cases; they are not brothers, having met each other for the first time yesterday, and as a brother named Joseph, and Joseph a brother named Tony.

Tony Freitas, according to his own testimony, is an ex-pugilist and at one time the best man in the world in his weight class, although he does not claim that he could have beaten any man among the heavyweights. On Sunday night he was drinking and entered the Java restaurant on North Market street. A quarrel with the proprietor resulted, followed by a free-for-all fight in which Freitas tried to slay his opponent. He was fined \$10 by Judge Dougherty.

Joseph Freitas was arrested on a warrant sworn out by Michael Jacobs.
